SHARP AND VIBRANT PROJECTIONS

The Strex SP280 Projector delivers breathtaking visuals with its native 1920x1080P resolution, ultra-high brightness, and 4K compatibility. Using advanced technology, it produces sharper and more vivid images than ever before. Enjoy stunning visuals at home, in your backyard, on the go, or while camping—perfect for movies, videos, and gaming!

SEAMLESS 5G+2.4G WIFI WIRELESS CONNECTION

Experience lightning-fast connectivity with the Strex projector's dual-band 5G+2.4G WiFi. Whether you're using iOS, Android, Windows, or other devices, the advanced WiFi and Bluetooth technology make mirroring or casting smooth and reliable. Stay connected with ease!

HI-FI STEREO SOUND & BLUETOOTH 5.0

Equipped with a built-in high-fidelity stereo speaker, the Strex projector ensures powerful and immersive sound. For an enhanced audio experience, use its Bluetooth 5.0 functionality to connect wirelessly to your favorite speakers or headphones. Enjoy cinema-quality sound anytime, anywhere!

LARGE DISPLAY & ±15° KEYSTONE CORRECTION

With a projection size of up to 300 inches, adjustable aspect ratios (4:3/16:9), and a zoom function (75%-100%), the Strex projector offers unparalleled flexibility. The ±15° keystone correction ensures distortion-free images, letting you customize your viewing experience effortlessly.

VERSATILE COMPATIBILITY

Featuring multiple input options—HDMI, USB, VGA, AV, and a 3.5mm audio jack—the Strex projector is ready for all your devices. It includes AV and HDMI cables for quick setup and is compatible with TV sticks, gaming consoles, laptops, tablets, PCs, DVD players, USB drives, and external speakers. Pair it with a TV stick for the ultimate home entertainment setup!
