Cat® CS11 GC Vibratory Soil Compactor

Introducing the Newest Cat® Paving Products

Diecast Masters launches its line of 1:50 scale Cat® paving machines in a big way – with five new models covering the most popular size categories.

PM622 and PM822 cold planers are highly maneuverable half-lane milling machines that perform full-depth removal of asphalt and concrete pavements in a single pass.

The rubber-tracked AP655F and rubber-tired AP600F asphalt pavers are mid- to high-production machines for highways, airport runways and other large job sites.

The CS11 GC smooth drum compactor has high vibration amplitude and weight concentrated at the drum for superior performance in granular soil.

DIECAST MASTERS™
Real Replicas

Contact your Diecast Masters distributor today to order.

Key Features of Our New Paving Machine Replicas

COLD PLANERS
