> Nowadays, all the people around me ask what dermatologist I am seeing.
> My trouble spots are much soothed now than before.

I was called names from middle school because I had serious acne on my face.

Can you imagine the stress? But using this toner 7 days a week completely changed my skin. Unreal! This is a sure miracle.

> I definitely reached the prime
> time for my skin.
> Now my makeup sinks into
> my face faster and tighter.

This was a first-hand experience of realizing
the importance of exfoliation.
I thought my unblended makeup was due
to the dryness of the skin and not dead skin cells.
Thank god I know it now!! :)

This Miracle Toner unbelievably calmed
down my skin's redness.
It also worked fine as toner pack today.

"

I have seriously dry skin with rather thick dry flakes which causes skin troubles. But this toner saved my life.

"

Watery-texture toner well suited my preference and my skin had a magical turnover both on the surface and underneath just in 4 weeks!
This will remain as my favorite toner throughout my life!
