

Description

Tiny but Powerful: One of the smallest and lightest 10000mAh portable chargers available. Easily fits into the palm of your hand, and the minimalist LED indicator shows the remaining power at a glance.

High-Speed Charging: The USB-C port supports up to 20W PD, ideal for charging the iPhone 12 to well over 50% in just 30 minutes. The USB-A port supports 18W Quick Charge 3.0, ideal for refueling a range of Android devices at top speed.

Dual Charging: Offers USB-C at one end, and standard USB-A at the other. Fast-charge two devices at the same time, or recharge the power bank through USB-C while you charge a device.

Intelligent Protection: Offers a comprehensive suite of safety measures, including protection against overheating, overcurrent and overcharging.

Package Contents: AUKEY Basix Mini PB-N83 10000mAh PD portable charger, USB-A to C Cable, User Manual, 24-Month AUKEYCARE Card.
