Fan

Stadler Form®

SWISS DESIGN SINCE 1998

TIM — refreshing!

fan ring can be swivelled and tilted for precise positioning of the air flow

speed settings can be continuously adjusted using the controller

with USB connection for mobile use and adapter for home use

At first glance, Tim may seem like an ordinary fan; at second glance, however, you discover an extremely quiet and adaptable new roommate! He may be silent, but you still know he's there. Equipped with a USB cable for mobile use and an adapter for home use, this fan will be a constant companion. Whether in the office, sunbathing on the lawn, on the campsite or when travelling: connected to an external battery pack, Tim makes sure the air is always fresh. The continuously variable speed control means he can adapt to every need and you can tailor the refreshment factor: from a gentle breeze to strong wind, anything is possible. Tim is flexible yet precise, thanks to a fan ring that can rotate and tilt for perfect airflow positioning.
