Please always follow these instructions for safe usage. If you have any questions about the product or experience any problems, please contact us by email: [service@lifegoods.nl](mailto:service@lifegoods.nl).

## 2 Features

- Input voltage: 12/24V
- Car charger function. Two USB port, total output 5V/3.1A
- 5V/3.1A USB port with intelligent quick charge identify IC
- Supports USB reading/TF card
- Display shows frequency and numbers
- Frequency : 87.5-108.0 MHz
- Support WMA/MP3 format songs
- Support A2DP music playing
- Support hands free function, with MIC inside
- Car battery voltage display
- Operation and condition voice prompt

### 3 Operation Guiding

1. Plug the FMT into the car cigarette lighter hole to power on.
2. Car battery voltage display function starts working, the display will show and with voice prompt : car battery voltage normal /abnormal.
3. Then FMT will display BT , with a voice : Bluetooth is ready to pair, and display will switch from BT to frequency alternately until you connect with Bluetooth or insert USB / TF card.
4. To use FMT music playing function, turn on the car FM radio , choose a clean channel, make sure the car radio channel is clean to avoid interference by local radio signal.
5. Adjust the FM transmitting frequency to match the car radio FM channel.
6. Insert the USB or TF card, FMT will start to play automatically.
7. Handsfree button.

#### 4 Voltage detection function

- For 12V car, when the voltage is under 11.5V or higher than 14.9V, it means a car battery issue.
- For 24V car, when the voltage is under 23.1V or higher than 27.3V, it means a car battery issue.
- If your car battery has some voltage problem, you should find professional car service to examine your car battery.

#### 5 Bluetooth connection

- Power on the FMT first, after shows the car battery voltage , there is a prompt voice :“Bluetooth is ready to pair”.
- Turn on your smart phone Bluetooth, search the FMT with the device name HY82.
- After connected, there is a prompt voice:” Bluetooth connected successfully”.
- Then you can use Bluetooth function to play music from your smart phone or answer a call with hands free.

#### 6 Hands-free function guiding

- After connect your smart phone to the BT FMT device:
- Answer the call : short press  to answer incoming call.
- Reject the call : long press  to hang up the incoming call
- Hang up : on calling or dialing state , short press  to hang up
- Recall : short and quick press  twice to recall the number which call in/out at last time.

## 7 Car charging function

There are two USB port for charging: 5V/3.1A and 5V/1A

- 5V/3.1A port: Max output is 5V/3.1A , mainly for device which needs big input current.
- 5V/1A port: Needs fast charging cable (which without data transfer function) for small input current needs devices like digital camera, functional cell phone, MP3 player etc.

## 8 Music playing function guiding
