Preface by MusicLife Ltd.

Jarre Technologies®, founded by the musical legend, Jean Michel Jarre has unveiled its latest speaker system, the AeroSkull Nano®. Uniquely designed to arouse fascination and curiosity, the AeroSkull Nano® is a monument to design, power and precision.

Optimal sound quality goes hand in hand with design at Jarre Technologies®. The AeroSkull Nano® features two 2 Watt speakers hidden behind sunglasses with an impressive 4 Watt Sub Woofer covering the whole of the back of the skull as well as 1% THD (Total Harmonic Distortion), to deliver an uncompromising listening experience.

Jean Michel Jarre first used the image of the skull in 1976 on the cover of his world renowned album, Oxygene which sold over 15 million copies. He says, "For me, the skull symbolises the perfect acoustic instrument – it is the sound box for word, song and music."

The AeroSkull Nano® is compatible with a large range of devices (see [Compatible Devices](#) for details) and a jack cable can also connect to any Mp3 player, computer or CD/DVD player. Bluetooth simplifies connection to any smartphone, laptops and any other Bluetooth.

In the box

- AeroSkull Nano®
- Micro USB to USB and 3.5mm cable
- Carabiner with strip
- Quick User-guide

Product Description of the AeroSkull Nano®

Technical Specification

- Bluetooth®, Compatible Bluetooth profiles: A2DP, AVRCP
- Amplifier Power 6 Watt
- Micro USB for Firmware update.

AeroSkull Nano® Quick Start

To start, plug the AeroSkull Nano® to your computer using the usb cable provide and the first time charge it for at least for 12 hours. To Power ON press and hold for about one second the power button located at the back of the speaker. (image how to plug the socket)

On Power ON the white LED will blink once. After Powered on, the product will automatically go into pairing mode. The Blue LED located on the tooth will start blinking to indicate that the AeroSkull Nano® Bluetooth is ON and ready to connect.

4.1.Using Bluetooth

To stream music to the AeroSkull Nano® using Bluetooth simply connect your Bluetooth device to the AeroSkull Nano® and press play on you device.

4.1.1.Connect to iPhone® or iPod®

To enable this feature, perform the following steps (image how to connect via Bluetooth iOS)

- Go to Settings on your iOS device.
- Look for General in the list
- Then under General go to Bluetooth;
- Make sure Bluetooth is On;
- Under Devices you should see something like this NANO_XXXXXX_XXNot Paired (X stands for letters or number, this may change for each device).
- Tap the list item NANO_XXXXXX_XXto connect. Your device will show that AeroSkull Nano® is connected.

4.1.2.Connect to Android Phones

To use this feature, perform the following steps:

- Go to Settings
- Tap on Bluetooth
- Turn On the Bluetooth
- Look for AeroSkull Nano® in the list of Available Devices. You should see something like this NANO_XXXXXX_XXNot Paired (X stands for letters or number, this may change for each device).
- Tap on the list item AeroSkull Nano® to pair and connect.

4.1.3.Connect to your Apple® Laptop or Desktop

Turn on Bluetooth on your computer.

- On Desktop top navigation bar click on the Bluetooth icon and from the Bluetooth dropdown selectSet Up Bluetooth Device
- From the list of devices select AeroSkull Nano® and press Continue, you should see something like this NANO_XXXXXX_XXNot Paired (X stands for letters or number, this may change for each device).Wait for the confirmation message
- Go back to the Bluetooth dropdown on the navigation bar.
- Roll over the AeroSkull Nano® on the list, another dropdown will appear.
- SelectUse as Audio Device.
- Now you can play the audio of your computer directly from the speaker.

Once connected the Bluetooth the Blue Led light will turn on.

Operating the AeroSkull Nano®

Volume Control

Volume onAeroSkull Nano®can be adjusted directly from the phone. There is no button to adjust the the volume directly from the speaker.

Left Tooth	Low Battery Indicator	Red LED is flashing
Left Tooth	Battery Charging	Green LED is steady ON

Input Mode

AeroSkull Nano® supports 2 kinds of input mode Bluetooth and Line-in mode

Bluetooth mode

What do you need:

- A bluetooth device
- 1 AeroSkull Nano®

To enable Bluetooth turn On AeroSkull Nano® the product will automatically go into pairing mode if no other device is connected. Then access Bluetooth on your device and go to the list of available devices. Look for AeroSkull Nano® between the list of the available devices then select AeroSkull Nano® to connect to the speaker. If AeroSkull Nano® does not appear on the list, please turn your speaker Off and then back On. Once you have successfully connected to the AeroSkull Nano®, the Blue LED Light Indicator located on the tooth of the AeroSkull Nano® will show a steady blue colour, you will now be able to stream audio.

Line-in mode

What do you need:

- 1 AeroSkull Nano®
- a 3.5 mm audio cable
- an audio device with Line out 3.5 mm port

To enable line-in mode you can connect a 3.5mm jack to the AeroSkull Nano® and play audio directly from your favourite device. Line-in port is located at the back of the AeroSkull Nano® next to the Micro USB port. [\(image: Line-in at the back of the AeroSkull Nano®\)](#)

Maintenance and Care

Maintenance may include periodically cleaning the AeroSkull Nano®.

8.1. Cleaning

Turn off the AeroSkull Nano® and unplug it before cleaning. To clean the exterior, use a soft, dry cloth.

DO NOT USE SOLVENTS OR SPRAYS.

DO NOT ALLOW LIQUIDS TO SPILL OR OBJECTS TO DROP INTO ANY AeroSkull Nano® OPENING.

8.3. Battery precautions

- The battery must not be open.

- The battery must not be short circuit.
- The battery cannot be replaced.

CAUTION

There is a danger of explosion if battery is incorrectly handled. Do not put the product into fire as it may explode or leak.

Place the AeroSkull Nano® on a flat and stable surface. It should not stand in direct sunlight or near water sources, humidity sources, heat, dust, vibrations or high magnetic fields. To ensure the best sound quality from your AeroSkull Nano®, we strongly recommend a compression rate of 256kb or higher for all mp3 or wma files.

First Help before assistance
