90cm Chain Lock

Security index 9/16

1. Dial the combination wheels to 0-0-0-0 and withdraw the padlock.
2. Turn the knob 90 degrees clockwise to the designated position.
3. Reset the combination wheels to the desired combination, making sure the numbers are lined up with the 2 pointers in front of the padlock.
4. Having selected your combination numbers, turn the knob back to the original position in a counterclockwise direction
