Description:

The Club 3D CAC-1000 is a passive DVI signal converter. The DisplayPort™ to DVI-D Adapter is the easiest solution for connecting your DisplayPort™ enabled Desktop or Laptop to a DVI enabled High Definition Television, Monitor or Projector. The adapter works with AMD, Intel and Nvidia graphics solutions and supports a maximum resolution of 1920x1200p @ 60Hz. Simply connect the DisplayPort™ (male) end of the connector to your computer and plug your existing DVI-D cable from the display into the DVI (female) adapter.

Setup requires no software installation. The adapter seamlessly converts the DisplayPort™ video signal into a DVI Digital video signal.

Please note that this adapter is for digital signals only and will not fit analog DVI-I ports
