Communication Guideline ver. 1.0

2020/2/7

Marketing communication section

Sony Home Entertainment & Sound Products Inc.

New XB series Common Concept

**Enjoy your music festival,
anywhere anytime.**

Feel the atmosphere and sense of unity
as if you were at an open-air music festival.

**EXTRA
BASS**

XB Series Target Image

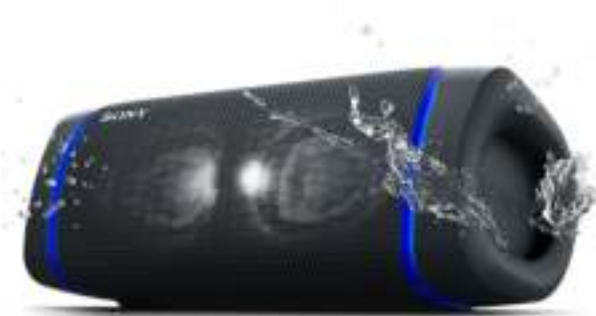

Men/Women in their teens to 30s

- Loves partying with their friends.
Doesn't matter whether that place is inside or outside.
Listens to punchy bass music.

The logo for 'EXTRA BASS' is positioned at the bottom center of the image. The word 'EXTRA' is in a white, outlined font, while 'BASS' is in a larger, bold font with a red-to-orange gradient and a glowing effect. The background of the entire image is a dark, blurred photograph of a crowd at a concert or festival, with many people's hands raised in the air.

XB43 Feature Priority list

① Sound

- EXTRABASS Sound
- X-balanced Speaker unit
- Tweeter
- LIVE SOUND mode

② Toughness

- Water Proof & Dust Proof (IP67)
- Long Battery Life

③ Usability

- Lighting
- Party connect
- Sony Music Center
- Fiestable
- Portability (size, design, weight, built in battery)
- BT®
- NFC™
- Multi layout
- USB Type-C™

NFC	Yes	Yes	No
USB port for charging device	Yes	Yes	No
USB Type-C™	Yes	Yes	Yes

XB23 is the most portable speaker among 3

Features

Keeping the concept from the predecessor model: more sound pressure and the deeper bass

Enhance every beat and give your party extra boost thanks to EXTRA BASS™. Dual passive radiators work together with 2 way speakers (SRS-XB43)/stereo full-range speakers(SRS-XB33/23) to enhance low-end tones, giving bass a boost – despite the compact size.

The logo for EXTRA BASS features the word "EXTRA" in a blue, outlined font above the word "BASS" in a bold, blue font with a colorful, iridescent gradient.

X-Balanced speaker unit

Sony
Unique

X-Balanced Speaker Unit enhances sound quality and power

-Developed by Sony, the X-Balanced Speaker Unit achieves high sound quality and powerful sound pressure for a richer, deeper, more rewarding listening experience.

XB23&XB33

Conventional X-Balanced Speaker

- Increase area of Speaker Diaphragm in same height space.
⇒ **Sound Pressure Up**
- Reduce amplitude in same sound pressure level.
⇒ **Less distortion**
- Off-center unit design with optimized weight balance.
⇒ Less Peak dip
⇒ Suppress rolling of the units during large vibration
 - Better Sound Clarity
 - Richer Audio information
 - Wider Sound Stage

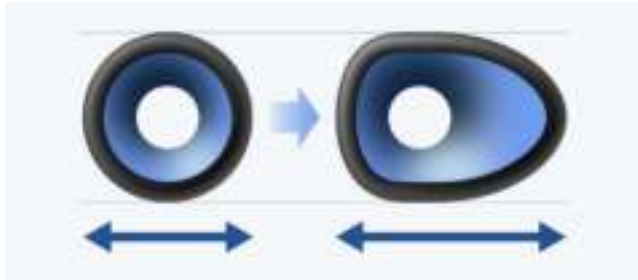

XB43

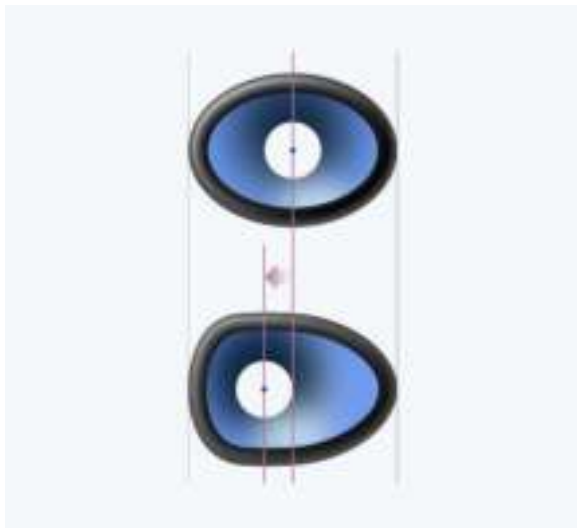

Conventional X-Balanced Speaker

- Maximize area of Speaker Diaphragm with the emphasis on Bass Sound
⇒ **Sound Pressure Up**
- Reduce amplitude in same sound pressure level.
⇒ **Less distortion and Vocal Clarity improvement**

X-Balanced Speaker unit- how it works

Within the same height, it maximizes the speaker size and realize more sound pressure

Meanwhile, the unit's off-center design and optimized weight balance help to enhance clarity and widen the sound stage.

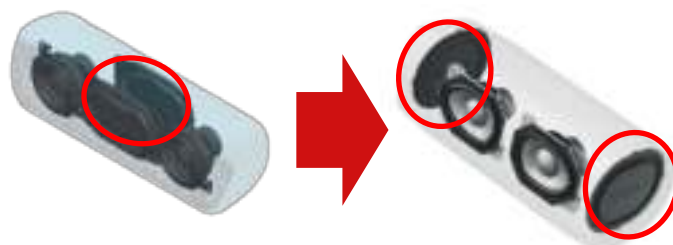

Tweeter for XB43

2way speaker system

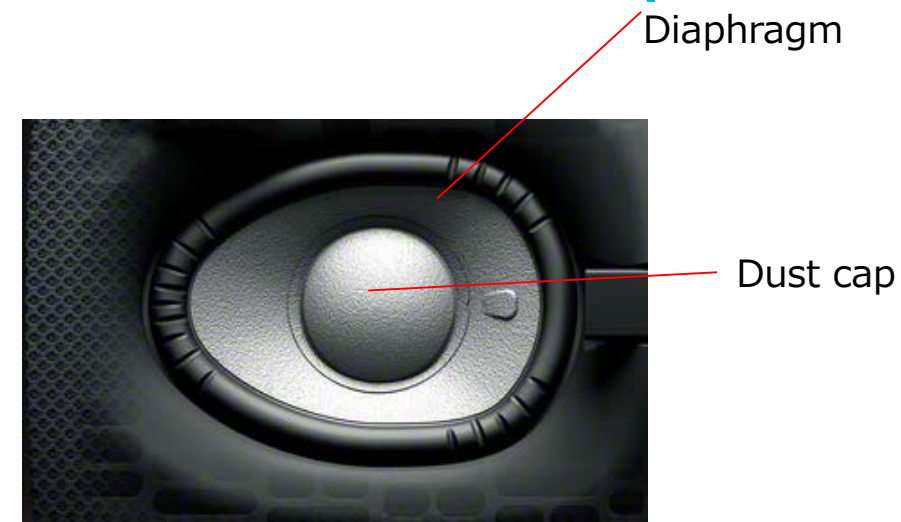

Designed high audio frequency units to make up for Woofer.
⇒ **Vocal Clarity improvement**

Side Passive radiator

Optimized layout to reproduce **clear bass sound**.

MRC cone and dust cap

The rigid and lightweight Mica Reinforced Cellular (MRC) cone and dust cap contributes to the sound quality.

LIVE SOUND mode

“LIVE SOUND” mode to reproduce more realistic and 3-dimensional sound

With DSP technology

Keeps the solid primary sound(vocal and instrumental sound), spread the ambient element such as cheers and reverb.

→realize more realistic sound at the music festival and live concert.

Vertically angled speaker

Optimized the angle for the “LIVE SOUND mode” → serves for the wider service area.

3-dimensional music experience as if you were at the live venue

Toughness- IP67

IP67

Waterproof

Dustproof

Waterproof

-Protect from immersion up to 1m / 30min

“Ingress of water in harmful quantity shall not be possible when the enclosure is immersed in water under defined conditions of pressure and time (up to 1m of submersion)”

Dustproof

-Protect from Dust

“No ingress of dust; complete protection against contact (dust tight)” following an 8-hour test

Rustproof

-Protect from Salt water

Not only in the pool but it's OK to use in the sea.

Toughness-Shock Proof

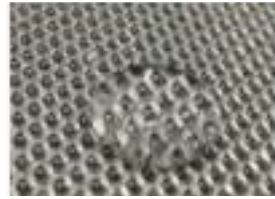

The SRS-XB33/23 has undergone extensive shock testing to make sure it can withstand the inevitable knocks, bumps and scrapes that come with everyday use. Even if you drop it, the SRS-XB33/23 will keep on working*.

*This does not guarantee no damage, no breakdown, or waterproof and dust proof performance in all conditions. Deformation or damage from dropping the system or subjecting it to mechanical shock may cause deterioration of the waterproof and dust proof performance.

Toughness- Fabric

XB43/33/23 : Washable* with fabric.

◆NG Use cases for Communication!!

Washing with detergent/Soap

Risk of damaging the water repellent coating

Washing with brush

Risk of damaging the fabric

*If the surface of the system gets dirty, do not use detergent, thinner, benzene, alcohol, etc. to clean and do not brush the system. Whether you can completely wash it off or not, depends on the dirt or stain

Usability-Lighting(Newly refreshed design)

XB43

- Line-Light (Multi Color)
- Tweeter light
- Speaker light

XB33

- Line Light (Multi Color)
- Speaker light

*XB23 doesn't have the lighting

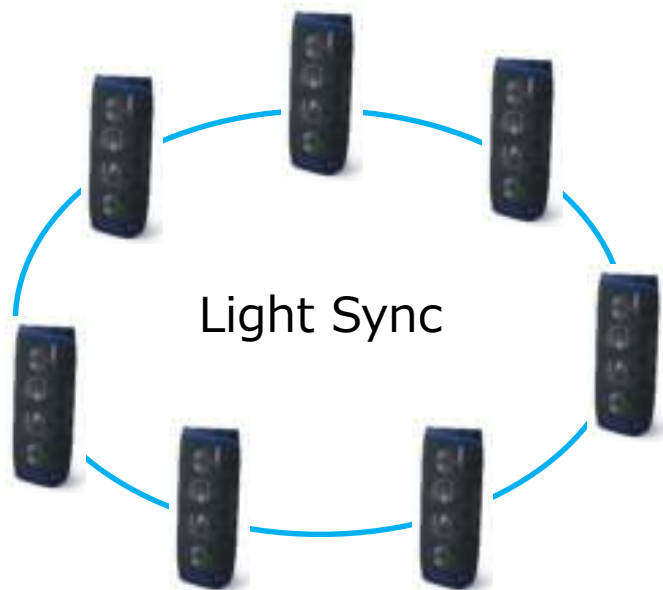

Lighting

Liven up atmosphere like EDM Festival

Usability-Party Connect (former Wireless party chain)

① Several pattern of Lighting synch-mode Up to 100 units

- All Flashing
- Random
- Circle
- Mode Off

② Smartphone App control

Sony|Music Center can control this function

- Select the pattern of lighting synch-mode

Party Connect

*Party connect only works within XB43/33/23

Usability-Multi layout

**You can layout the main unit both horizontally and vertically.
With vertical placement, you can save the space with small footprint**

Portability

Portable size, perfect to bring anywhere
Even better with the strap (XB23 Only)

BLUETOOTH®/NFC™

Bluetooth® technology and NFC™ function allows you to easily listen to music stored in/streamed with your smartphone. (NFC is only for XB43/33)

USB Type-C™ and USB port for charging device

XB43/33/23 can be charged with USB Type-c™ cable

Connect your smartphone via USB for battery charging. (XB43/33 only)

To differentiate 2 videos, XB43 focuses on Sound quality, and XB33 focuses on durability

XB43

Focuses on **Sound quality**

- Starting with big party scene in which audience can feel the deep bass music (Scene: In house)
- Using CG for sound part to fully appeal the sound quality
- Tell audience that XB43 is the sound flagship model
- The half of the video will be dedicated for sound part

XB33

Focuses on **Durability**

- Starting with the XB sound scene and followed by many use cases in which we focus on durability (Scene:Outside)
- Fun, healthy image
- Sound part is shown as the second important part.
- The half of the video will be dedicated for durability part
