

# Orion IP67 24/12 DC-DC Converter

Non isolated

www.victronenergy.com

Orion IP67 24/12-10 Orion IP67 24/12-20

## Completely encapsulated: waterproof, shockproof and ignition protected

Water, oil or dirt will not damage the Orion IP67 DC-DC Converter. The casing is made of cast aluminium and the electronics are moulded in resin.

### Extra-long input and output cables

Thanks to the cables of 1.8 meters in length, intermediate cable interconnections to increase length even more will in most cases not be needed. This is an important reliability increasing feature in an area were IP67 protection grade is needed.

### Wide input voltage range

With 15 to 40 Volts input range, a stable output is ensured during surges or sags due to other equipment connected to same battery.

#### Protected against overheating

It can be used in a hot environment such as a machine room.

Orion IP67 24/12-5 with 1,8 m cables
