## Who are we

Shenzhen PowerOak Newener Co., Ltd was established in 2013, focusing on the research and innovation of distributed energy storage products and micro grid technology, mastering the international advanced green energy storage technology and completed energy storage battery application solutions. It is in the global leading position in the integration of photovoltaic energy storage, grid connected bidirectional inverter power, energy internet management system, etc., to provide customers with integrated services of design, research, development, production, sales and after-sales service for household / commercial photovoltaic energy storage system, portable energy storage unit, DC power energy storage unit. It has developed into a leading manufacturer in the energy storage industry. Its products are sold in more than 70 countries around the world, and has branches in Japan, the United States, Germany, Australia, Nigeria and other major markets.

PowerOak is committed to becoming a leading global energy storage brand, building a sustainable low-carbon service and energy future, and promoting the green, healthy and sustainable development of energy storage industry.

# BLUETTI

## OUR HISTORY

### 2013

Poweroak was established and launched the industry's first solar portable energy storage power bank PS10B.

### 2015

Employee number and workshop area doubled and our production capacity was further expanded due to significantly increased demand from UK and German.

### 2017

In 2017, we passed three traditional standard system and TS16949 certification test, R&D investment has been increased to 15 million, a full-automatic production line for electric vehicle battery has been put into trial.

### 2019

On Oct. 27th new overseas brand strategy has been implemented, sub-brand BLUETTI trademark was registered in USA. On Nov. 7th, the local brand Boludi was launched.

POWEROAK

### 2014

Poweroak rolled out the household, medium-sized commercial photovoltaic energy storage solutions, creating a comprehensive product line of portable, household and commercial series, becoming strategic partners of Samsung and LG, and founding a Japanese branch.

### 2016

The company's sales area expanded to Australia, North America, the Middle East, Africa and Southeast Asia, with a sales growth of 260%.

### 2018

Poweroak continued to maintain high R&D investment, keeping the leading role in industry, complete the product matrix and increase efforts to build global influences of Bluetti, with overseas market and service network establishment.

### 2020

Emphasizing social commonweal and social responsibility, Poweroak was received a certificate of appreciation sent by Mr. Li Ming, Director of the UNESCO Innovation Center for Higher Education.

## Why choose us ?

### Reliable product quality

Our intelligent, automated, and information-based manufacturing system, and the fully adopted MES information-based production management system. The product precision reaches 0.01mm, product yield  $\geq 99.99\%$ .

### Advancing energy storage technique

more than 100 talented & experienced engineers . Average 15million investment in R&D , 20 patents applied annually.

### In-house industry standard laboratory

Complete laboratory with more than 100 product test items, including UL safety testing and 45 test procedures.

### Worry-free after-sales service system

One-year warranty period, lifetime maintenance; Global Product Liability Insurance, 24-hour rapid response; nearly 100 global service networks

## Qualification certificate

- ① Patent for invention
- ② EB120 certificate of registration (America)
- ③ EB20 certificate of registration (America)
- ④ AC100 certificate of registration (EU)
- ⑤ AC50 certificate of registration (EU)

- ⑥ Energy storage battery AC50-certificate of registration
- ⑦ Distribution solar energy storage system patent
- ⑧ LJ1712205 Invention Patent Certificate (Seal)
- ⑨ A patent certificate for a portable solar energy storage power station
- ⑩ An invention patent for energy storage station

## Our factory

### Automatic SMT Production line

Automatic SMT Production line, ensures the quality of PCBA, which is the core component of energy storage products.

### Automatic Battery Pack Production Line

Automatic Battery Pack Production Line, providing guarantee for the consistent of battery pack, key components of energy storage products.

### ATE testing equipment

Professional and customized ATE test equipment can ensure that all the ex-factory energy storage product has no problems.

### Professional testing laboratory

Professional testing laboratory, ensures all the raw material are qualified with the design and production requirements.

### AC30S Portable Power Station

**300Wh**  
Battery

**300W**  
AC Output

**USB**  
Type-C

**Wireless Charge**

**Car charging**

#### Feature

- ▣ Double protections on both BMS and charger
- ▣ Built in LiFePO4 battery for long life cycle
- ▣ Space saving Hidden foldable handle
- ▣ Multiple DC output ports ,support charging different devices simultaneously
- ▣ LED Lighting and SOS Functions
- ▣ Wireless Charging Function
- ▣ Double AC output socket of 300W max

## AC50S Portable Power Station

### Feature

- ▣ Double protections on both BMS and charger
- ▣ Pure Sine Wave inverter, friendly for electric appliances
- ▣ Built in MPPT solar controller, higher efficiency
- ▣ Innovative design of food grade anti-collision rubber cover
- ▣ Intelligent temperature cooling fan, working silently
- ▣ Multiple DC output ports, support charging different devices simultaneously
- ▣ LED Lighting and SOS Functions
- ▣ Double AC output socket of 300W

## AC100 Portable Power Station

### Feature

- ▣ Double protections on both BMS and charger
- ▣ Pure Sine Wave inverter, more friendly for electric appliances
- ▣ Up-market Aluminum casing, better heat dissipation performance
- ▣ One-piece handle for super texture
- ▣ Multiple DC output ports, support charging different devices simultaneously
- ▣ LED Lighting and SOS Functions
- ▣ Double AC output socket of 600W strong power
- ▣ 10000Wh High Capacity, long lasting standby

### PS50 Solar Power Station

#### Feature

- ▣ Double protections on both BMS and charger
- ▣ Pure Sine Wave inverter, friendly for electric appliances
- ▣ Built in MPPT solar controller, higher efficiency
- ▣ Multiple DC output ports, support charging different devices simultaneously
- ▣ Three charging method, charge anywhere

### PS54 Portable Power Station

- 537 Wh Battery
- 700 W AC Output
- Type-C QC3.0
- Wireless Charge
- Car AC Output

#### Feature

- High-rate lifepo4 battery, over 2000 lifecycles
- Pure Sine Wave inverter, high efficiency built in MPPT
- Support dual port charging, 2 hour to charge full
- PD3.0 100W super Rapid charging
- Support ECO mode, energy saving
- Hidden folding handle for easy storage

## EB200P Solar Power Station

### Feature

- ▣ Double protections on both BMS and charger
- ▣ Pure Sine Wave inverter, more friendly for electric appliances
- ▣ 5 charging method, support double charging port working simultaneously
- ▣ Interactive touch screen to show the working status and faulty diagnosis
- ▣ Fashionable color collocation, Sleek and sporty
- ▣ 2000W strong power to charge 17 devices simultaneously
- ▣ 20000Wh High Capacity, long lasting standby
- ▣ Intelligent temperature cooling fan, working silently

|                       |                                 |   |

## EB240 Solar Power Station

2.4kWh  
Battery1000W  
AC OutputType-C  
PD

### Feature

- ▣ Double protections on both BMS and charger
- ▣ Pure Sine Wave inverter, friendly for electric appliances
- ▣ Built in MPPT solar controller, higher efficiency
- ▣ Up-market Aluminum casing, better heat dissipation performance
- ▣ One-piece handle for super texture
- ▣ Intelligent temperature cooling fan, working silently
- ▣ Multiple DC output ports, support charging different devices simultaneously
- ▣ Double AC output socket of 1000W strong power

### PS200A Solar Power Station

-  2150Wh Battery
-  2100W AC Output
-  Type-C PD3.0
-  Wireless Charge
-  Car AC Output Port
-  Quick Solar Charge

#### Feature

- ▣ Lifepo4 Battery 2000Wh High Capacity, Over 2000 Cycles
- ▣ Interactive Touch Screen To Show The Working Status And Faulty Diagnosis
- ▣ 5 Charging Method, Support Double Charging Port Working Simultaneously
- ▣ 2000W Strong Power, Support Charging Most Home Appliances
- ▣ Support ECO mode, energy saving
- ▣ Silicon Covers On All Ports, Water And Dust-Proof

### AC200 MAX Solar Power Station

#### Feature

- 2048Wh LFP Battery with life cycle 3500+ to 80%.
- Expandable capacity reaching up to 8KWH by connecting module battery.
- 2200W pure sine wave AC inverter, Surge 4800W.
- Smart charging, boost a stunning 1400W total charging rate.
- Smart App control & monitor.

|                           |   |   |

## B230 Solar Power Station

### Feature

- 2048Wh LFP Battery with life cycle 3500+ to 80%.
- Expandable capacity reaching up to 8KWH by connecting module battery.
- 2200W pure sine wave AC inverter, Surge 4800W.
- Smart charging, boost a stunning 1400W total charging rate.
- Smart App control & monitor.

### B300 Solar Power Station

3072 Wh Battery

Scalability

APP Remote Monitoring

Quick Solar Charge

Car AC Output Port

Type-C PD3.0

#### Feature

- ▣ 3072WH LFP versatile power source.
- ▣ Able to work as a portable power station , With 100W USB-C,12V/10A car lighter, USB-A, and a USB-A ports.
- ▣ Flexible charging ways, adaptor,solar, battery, car,reach up to 700W max charging power.
- ▣ Support Hot swapping.

## Solar Home Lighting System

### Feature

- Intelligent IOT and Pay as you go enabled
- Open to any third party PAYG service providers
- High-integration, Plug & Play
- High Efficiency & More Economic
- LED screen displays : Prout status & defaulty infomatio

|                    |   |
|--------------------|---|
| Model              | E20/E40/60/P100/P150/P200/P250/P300/P350  |
| Battery Capacity   | 20wh/40wh/60wh/102wh/103wh/152wh/205wh/256wh/307wh/309wh  |
| Battery Type       | Lithium Iron Phosphate  |
| Output Ports       | 4*USB Ports(5V@1.2A) 10*55/25 DC output ports(12V@1A)   |
| Casing             | ABS + PC  |
| Solar Panel        | 6W/18W/55W/75w/110W/160W  |
| Lamp               | 1W lamp 130LM / 91LM / 40LM ; 2W lamp 260LM / 182LM / 91LM ; 4W lamp 520LM / 364LM / 182LM  |
| Lamp Remote Switch | 1PC   |
| Token input keypad | 1PC   |
| Radio              | Rechargeable  |
| DC sound system    | Optional  |
| TV                 | 24 inch TV with integrated decoder  |
| Accessories        | 1m+2m+3m Cables for Lamps , 3m Extension Cable  |
| Charging Cable     | 4 in 1 Muliti Cellphone Charging Cable  |
| Function           | Home Lighting, Mobile Charging, Outdoor Lighting, Enjoy FM&AM Radio, Power TV & Fan, sound system/amplifier,refrigerators, sewing machine, satellite decoder, wireless router |
| Warranty           | 2 years   |

### Solar Home System

The definition of Solar Home System:

Solar home systems (SHS) are stand-alone photovoltaic systems that offer a cost-effective mode of supplying amenity power for lighting and appliances to remote off-grid households. In rural areas, that are not connected to the grid, SHS can be used to meet a household's energy demand fulfilling basic electric needs. Globally SHS provide power to hundreds of thousands of households in remote locations where electrification by the grid is not feasible. SHS usually operate at a rated voltage of 12 V direct current (DC) and provide power for low power DC appliances such as lights, radios and small TVs for about three to five hours a day. Furthermore they use appliances such as cables, switches, mounts, and structural parts and power conditioners / inverters, which change 12/ 24 V power to 240VAC power for larger appliances. SHS are best used with efficient appliances so as to limit the size of the array. A SHS typically includes one or more PV modules consisting of solar cells, a charge controller which distributes power and protects the batteries and appliances from damage and at least one battery to store energy for use when the sun is not shining.

## SP120 Foldable Solar Panel

### Feature

- With ETFE film, durable and waterproof
- Sungold Mono solar Cells, 23.5% high conversion efficiency
- Portable and foldable, weighting 4.3kg, easy to carry with
- Adjustable kickstand case

|                            |                         |
|----------------------------|-------------------------|
| Model                      | SP120                   |
| Peak Power(Pm)             | 120W                    |
| Solar Cell Lamination      | Monocrystalline Silicon |
| Cell efficiency            | Up to 23%               |
| Voltage at max power (Vmp) | 19.8V                   |
| Current at max power (Imp) | 6.06A                   |
| Open circuit voltage(Voc)  | 23.7V                   |
| Short circuit current(Isc) | 6.66A                   |
| Operating Temperature      | -10 C ~ +65 C           |
| Best working temperature   | +25 C                   |
| Folding number             | 4                       |
| Dimension(unfolded)        | 411*1708mm/16*67inch    |
| Dimension(folded)          | 411*427mm/16*16.8inch   |
| Weight                     | 4.3kg/9.48lb            |

## SP200 Foldable Solar Panel

### Feature

- With ETFE film, durable and waterproof
- Sungold Mono solar Cells, 23.5% high conversion efficiency
- Portable and foldable, weighing 4.3kg, easy to carry with
- Adjustable kickstand case

|                            |                           |
