2、After charging full: The blue indicator on;
3、Low battery: Red indicator flashes twice with voice prompt

How to Connect to Bluetooth devices

1、Power on & pairing status : press and hold the multi -function button until the indicator light flashes blue and red light, And you will hear the voice prompt "Power on", Then the headset will automatically enter the pairing status.
2、Activate Bluetooth and set it to search for new devices.
•iPhone⌷ : Settings > Bluetooth > On*
•Android™:Bluetooth: On > Scan for devices"
•PC/Notebook: Bluetooth Setting: On > add a Bluetooth device
3、Select "HSP-B3"
4、Input password:0000 if needed(default password is 0000)
NOTE: If your PC/Notebook does not support Bluetooth function or remind you need driver, you may need to use an external Bluetooth USB Adapter.

How to Reconnect:

1、You headset will try to reconnect the lost connection ;

2、If the headset doesn't try to reconnect， Please click the multi-function button once or manully connect with the wireless equipment menu of the mobile phone;

Troubleshooting

I、The mobile phone can't find the headset
Possible reasons:
1、The headset is not under ON and standby state;
2、The headset program is error;
3、The program of the mobile phone is error;
Solutions:
1、After turning off the headset ,Hold the Multi -function button(red and blue indicator flashes by turn)to enable pairing state;
2、Recover the Wireless headset's default settings;
3、After restart the mobile phone, remove all pairing data in the Wireless of the mobile phone;
Cautions:
1、After the Wireless headset has entered in the pairing mode, it will connect within 2min, otherwise, the headset will automatically turn off;
2、Hold the MF button and Mute button for 5 seconds at the same time ;

II、No sound from the headset

Possible Reasons:
1、The Volume of the mobile phone is unsuitable;
2、The Wireless headset and mobile phone are not connected correctly;
3、The Wireless headset is out of the working range;
Solutions:
1、Adjust the volume in the mobile phone;
2、Operate with the reference of the use steps;
3、Keep the headset in the range of 10m to the mobile phone without any obstacle;
Cautions:
1、Do not have any other operation when searching headset for avoiding program error;
2、Please use headset near the mobile phone to assure best effect;

III、Charging red indicator doesn't light on

Possible Reasons:
The headset has not been used for a long period;
Charge headset for about 30min,and then the red indicator may light on;

Cautions:

It will drop the capacity and service life of the battery if it is over charged or the Wireless headset is stored in the environment such as closed car;

TECHNICAL SPECIFICATIONS

Warning

Frequently Asked Questions

Why do I hear static noise on my headset?
*Wireless devices are susceptible to interference that may affect audio quality and result in static. To avoid blocking the Bluetooth signal, follow these guidelines:
1. Make sure the distance between your headset and the paired device does not exceed 10 m.
2. Make sure there is a direct line of sight between your headset and phone. Avoid placing objects that can block radio signals between paired devices.

(include walls, doors and windows.)
3. Avoid environments where computers/microwave ovens/high concentrations of WiFi are present
4. Keep your headset and mobile phone on the same side of your body.
5. Avoid placing your mobile phone in a back pocket.
*Note: Low battery capacity in your headset and mobile phone may affect the Bluetooth range.
