

Usage of Water brush

Turn!

So easy!

JUST
add
WATER!
NO Ink!
NO Chemicals

MAGALLY
DISAPPEARS!

Doodle
again & again!

Tips:

Before using the brush, please soak it in water for a few minutes. After the brush is fully wet, it will become smoother when drawing.

Please ensure that the water is clean when using. Otherwise it will leave the traces on the mat. If this happens, rinse the mat with water and then dry it.

In order to protect the mat, please do not use other color brushes to draw on it expect our magic brushes.
