

# HDMI FLAT HEAC

TRUE TRANSMISSION TECHNOLOGY \* HYBRID DESIGN \* HALOGEN FREE

**Following the latest specifications introduced by the official HDMI organisation we are proud to introduce The VDH HDMI Flat HEAC, a new high quality, flat shaped, HDMI cable that is fully compliant with the HDMI 2.0 standard for lengths up to 10 meter.**

With The VDH HDMI Flat HEAC our included unique design and material features provide unparalleled added value in terms of signal transport quality and fidelity, cable lifespan and environmental friendliness. Applied throughout our product range, this more serious cable design and production approach makes van den Hul stand out from the rest.

Offering exceptional performance and value for money, The VDH HDMI Flat HEAC delivers clear sharp images, accurate color definition, vivid contrast and an infinity of fine detail up to

the highest video resolutions. Sound at any digital format is matchless.

## FEATURES

Fully compliant with the HDMI™ High Speed & Ethernet (v2.0b) specification for lengths up to 10.0 meter.

High-density-coated Oxygen Free Copper conductors warrant minimum signal attenuation.

Available in a wide range of lengths: 1.0, 1.5, 2.0, 3, 5.0, 7.5 and 10 meters.

High-quality HDMI 'Type A' connectors with heavy gold plated contacts provide solid and reliable connections.

In addition to the cable's Hülliflex® jacket, the internal conductors' special coating adds extra protection against aggressive environmental conditions.
