## 3.Charging instruction

### When Charging

Plug in the adapter, turn on the power, the symbols on the display will light up one by one, and then turn off one by one, the battery percentage symbol will be displayed permanently. When the battery is lower than or equal to 10%, the battery percentage symbol flashes in red; when the battery is higher than 10%, the battery percentage symbol flashes in white; when the charge is 100%, the battery percentage symbol stops flashing, indicating that

it is fully charged.

### When the battery is fully charged

Fully charged needs 1 hour charging time to last approximately 120 minutes shaving time.

### When the battery is running low

When the first indicator light turns red blinking, that means you need to recharge the shaver.

### Charging Procedure

a:Connect the USB cable to your adapter and other power supply or directly to your computer.

b:After the battery is fully charged, unplug it from the wall socket and unplug the cable from the shaver USB plug.

## 4.Using

Connect the shaver to an AC outlet with 5V output or less, such as a phone charger or computer USB port.

a:Press the on / off button to open or close the shaver.

Your skin may need 2-3 weeks to adapt to the Rantizon shaving system.

sideburns knife to make sideburns knife pop out and trim

sideburns beard.

d:After shaving, press the on / off button to turn off the shaver; then put on protective cover to prevent damage.

**NOTE:**

When the head is damaged, do not shave, so as not to damage your skin.

**5.Clean instruction**

Do not use compressed air, scouring pads, abrasive cleaning agents or petrol, acetone and other corrosive liquid to clean the shaver.

You can rinse the shaver under the tap or clean it with a brush we equip.

Be careful when using hot water. Always check the water temperature to make sure is not too high to prevent scald. Clean it each time after shaving to obtain the best shaving performance.

Damp cloth is available to clean the outside of the shaver, but do not wipe the shaving blade parts with a towel or tissue, as this may damage the shaving blades.

a:Switch off the shaver. c:Pull out the Shave blades b:Press the release button, part from the shaver . and open the shaving unit.

d:Turn the locking device (A) counterclockwise, remove the retaining frame (B).

**NOTE:**

e:Remove and clean the shaving heads one by one. Each contains a set of razor head cutters and guards.

Remove the blade from the guards and use the brush for cleaning. Do not clean more than one cutter and guard because they are matched with each other. If you accidentally mix up the cutters and guards, it may take several weeks to restore the best shaving functions.

Clean inside and out with a clean brush grille.

Make sure the shaver head recess portion aligned with the recessed portion.

f:Put the shaving heads back into the shaving unit.

g:Put the holder (B) back into the shaving unit, then turn the locking device (A) clockwise.

#### **NOTE:**

h:Put the flange fork shaving unit into the slot at the top of the shaver. Then Close the shaving unit.

If the shaving unit closed sluggishly, check the shaving head to make sure it is inserted correctly and the holder is locked.

## **6.Store instructions**

With a protective cap on the shaver shaving heads to avoid damage.

## **7.Change blades**

For the best shaving performance, we recommend replacing blades regularly. To replace the blades, follow the steps below:

a:Switch off the shaver. Disconnect the shaver.

b:Press the release button to open the shaving unit.

c:Pull out the Shave blades parts from the shaver .

d:Turn the locking device (A) clockwise to remove the retaining frame (B).

e:Remove the shaving blades and put the new one in the shaving unit .

f:Ensure alignment of just shaving heads recessed portion recessed portion. (Replace it with adverse way of the above sequence )

g: The holder (B) back into the shaving unit, the clockwise rotation of the locking device (A).

h: Put the flange fork shaving unit into the slot at the top of the shaver. Then close the shaving unit.

## **8.Environmental protection Tips**

To throw away the product, please do not stack with the normal household waste; it should be handed over to an official collection center.

### **Remove the rechargeable battery shaver**

To remove the battery out only when you discard the shaver and make sure the battery is completely depleted.
