**The CE logo must be indelible (label, packaging and manual/DoC) as written on Annex VII of Legislative Decree 269 of 2001.**

The test of the indelible is performed in the following way

**Compliance is checked by inspection and by rubbing the marking by hand for 15s with a cloth soaked in water and then again for 15 s with a cloth soaked in gasoline. After this test, the markings must still be readable, labels must not be able to easily remove and should not curl.**

The petrol to be used for the test is aliphatic solvent hexane with a maximum aromatic content of 0.1% by volume, a kauributanolo value of 29, an initial boiling temperature of about 65 ° C, a final drying temperature of about 69 ° C and a density of about 0.7 Kg / l.
