

**WARNING**

Not following instructions may cause damage or explosion.  
Always shield eyes. Read instruction manual before use.

- Switch off ignition
- Switch off the safety switch (on the side)
- Under no circumstances allow the red and black clamps to touch each other
- Connect the black (-) clamp to negative battery terminal
- Connect the red (+) clamp to the red (+) positive battery terminal
- Check the connect indicator
- Switch on the safety switch (on the side)
- When finished, switch off the safety switch and disconnect the red (+) clamp first
- Recharging: only use original 230VAC adapter and no external load connected to device
