

1. Put the suction tube on the brass tube for the snow foam lance.
2. Put the adapter with the brass tube for the snow foam lance.
3. Fill fluid bottle with your desired amount of shampoo.
Fill fluid bottle with water (for best results, use warm water, 20% shampoo +80% water is suggested).
Shake the fluid bottle to mix the shampoo with water thoroughly.
Attach fluid bottle to foam lance unit.
4. Attach the adapter to the pressure washer gun and it is ready for use.
