Connect a notebook with USB-C to a monitor or beamer with HDMI

Connect a source device with USB-C to a monitor or beamer with HDMI by using the USB-C 3.2 Gen1 to HDMI adapter. The USB-C port of the source device must support DP Alt Mode. The USB-C to HDMI Adapter supports the maximum resolution of 4096 x 2160 (4K) @ 30Hz.

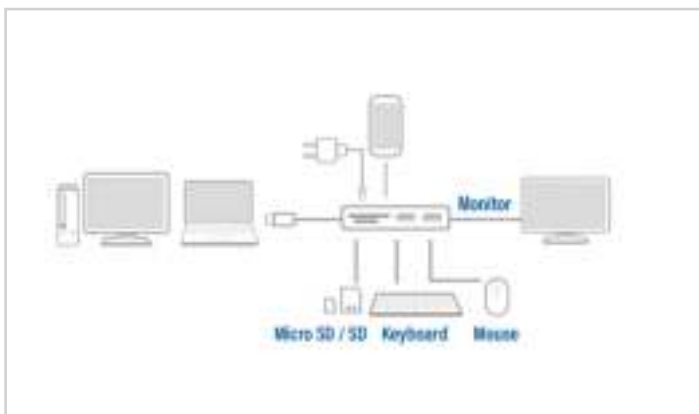

USB-C Power Delivery Pass-Through port 60W

The USB-C Pass-Through port supports power delivery 60W. The notebook is always charged with the right amount of power thanks to the pre-defined Power Delivery profiles. The charger communicates with the notebook to negotiate the most effective charging profile.

Video adapter, card reader and hub in one

The AC7021 USB-C to HDMI adapter can also be used as card reader or hub. The adapter includes a SD/micro SD card reader and an additional USB-C port and two USB-A data ports.

Please make sure the USB-C port of your source device supports DP Alt Mode.
