⚠ Warning!

Choking Hazard. Small parts. Contains small balls.
Not suitable for children under 3 years.

⚠ Avertissement !

Risque d'étouffement. Contient de petites pièces.
Contient de petites billes.
Ne convient pas aux enfants de moins de 3 ans.

⚠ Attenzione!

Pericolo di soffocamento. Parti piccole.
Contiene piccole palline.
Non adatto a bambini sotto i 3 anni.

⚠ Warnung!

Erstickengefahr. Kleine Teile. Enthält kleine Kugeln.
Nicht für Kinder unter 3 Jahren geeignet.

⚠ ¡Atención!

Peligro de asfixia. Contiene piezas pequeñas.
Contiene bolas pequeñas.
No apto para menores de 3 años.

⚠ Waarschuwing!

Verstikkingsgevaar. Kleine onderdelen.
Bevat kleine balletjes.
Niet geschikt voor kinderen jonger dan 3 jaar.

Bamboo Wooden Marble Run
 Bambus Holz Mummelbahn
 Parcours de billes en bambou
 Laberinto de canicas de madera de bambú
 Pista biglie in legno di bambuo
 Knikkerbaan van bamboe

The boppi bamboo marble run allows children to create and build structures from various tracks, direction cylinders, and spirals, that will enable marbles to journey from the top of the marble run, through different routes and actions, and to exit at the bottom of the structure. Multiple structures and configurations can be created.

Die Boppi-Bambus-Mummelbahn ermöglicht es Kindern, Strukturen aus verschiedenen Bahnen, Richtungszyllindern und Spiralen zu erstellen und zu bauen. Das ermöglicht es den Mummeln, von der Oberseite des Mummellaufs über verschiedene Routen zu reisen und am unteren Ende des Laufs auszutreten. Es können mehrere Strukturen und Konfigurationen erstellt werden.

Avec le parcours de bille en bambou Boppi, les enfants peuvent créer et construire différentes structures à l'aide de plusieurs pistes, cylindres directionnels et spirales, qui feront voyager les billes de leur point de départ au sommet jusqu'en bas du parcours, en empruntant une multitude d'itinéraires et en performant toute sorte d'actions. Toute une variété de structures et d'assemblages peuvent être créés.

El laberinto de canicas de madera de bambú de boppi permite a los niños crear y construir estructuras por medio de diferentes rampas, cilindros de dirección y espirales para que las canicas hagan el recorrido desde la cima del laberinto, a través de diferentes rutas y acciones, hasta salir al final del laberinto. Se pueden crear múltiples estructuras y configuraciones.

La pista delle biglie in bambú boppi permette ai bambini di creare e costruire strutture con vari binari, con forme cilindriche e spiroidale, che permetteranno alle biglie di scivolare dalla cima della pista, attraverso diversi percorsi e azioni, e di uscire in fondo alla struttura. Si possono creare strutture e configurazioni multiple.

Met de knikkerbaan van bamboe van boppi kunnen kinderen bouwwerken maken met verschillende banen, cilinders en spiralen. Hiermee rollen knikkers vanaf de top van de knikkerbaan, via verschillende routes en bewegingen, naar buiten aan de onderkant van het bouwwerk. Er kunnen meerdere bouwwerken en opstellingen worden gemaakt.
