

# Legion Y25-30 Gaming Monitor

## Powered to win.

## Immerse into the action.

Smooth, fast, and dynamic - the Lenovo Legion Y25-30 monitor is power-packed to elevate your gaming experience to a whole new level. Keeping every individual's comfort in mind, this large 24.5-inch FHD (1920 x 1080) screen is carefully built to the perfect size that visually enhances every detail in the frame while also being comfortable to keep an eye on the on-screen action from end-to-end. This brilliant architecture is complemented with a 240 Hz high refresh rate panel, delivering a fluid gaming experience. The VRR technology's (AMD FreeSync™ Premium<sup>1</sup>) extremely rapid 1ms response time eliminates stuttering and ghosting, making every moment an opportunity to win. With an In-Plane Switching panel, 99% sRGB color gamut, Avg. Delta E<2 factory color calibration and HDR support, experience real-like images with vivid, accurate, and dynamic colors from every angle. The Natural Low Blue Light technology lets you comfortably enjoy long durations of gameplay by automatically reducing the high-frequency blue light from the display panel without any color distortion. Loaded with the Lenovo Artery software<sup>2</sup>, this monitor lets you take over the control. The software not only helps you better manage the display performance and other devices, but offers 'Gaming Tools' like Show Frame Rate, Show Timer, Show Aim Point, and Shortcut Key settings. With cutting-edge features and reduced eye strain - the Legion Y25-30 is a delight for your eyes in every way imaginable.

### FEATURES OF LEGION Y25-30 GAMING MONITOR

#### You'll believe everything you see

The Legion Y25-30 monitor comes with a 24.5-inch FHD (1920 x 1080) screen - the best size that delivers a clear picture to view details vividly and captures the action from corner to corner to enable gamers to react quickly. The wide 99% sRGB color gamut displays the content of your favorite games in vivid colors, while the Avg. Delta E<2 factory color calibration ensures color accuracy. The 400 nits brightness and HDR support bring the virtual world to life with life-like light and shade effects, making your game environments and characters look more realistic. The In-Plane Switching panel of the Legion Y25-30 monitor displays the accurate color at every angle.

#### Transform your gaming universe

The Legion Y25-30 monitor's lightning-quick 240 Hz rapid refresh rate delivers an unprecedented smooth gaming picture, allowing users to be mesmerized by the visual details of the game without any motion blur. For gamers, every millisecond counts. That is why the Legion Y25-30 monitor features an astonishing 1ms response time that completely eliminates streaking and ghosting. This combination of extreme refresh rate and amazingly quick response time is truly unprecedented. The integrated VRR technology (AMD FreeSync™ Premium<sup>1</sup>) takes this fluid experience a leap further when it dynamically matches the refresh rate of the display to the frame rate output of the GPU.

#### Customized for comfort

The Legion Y25-30 monitor's Natural Low Blue Light technology protects your eyes by automatically reducing the high-frequency blue light from the display panel while retaining the original colors. The Artery (Lenovo Display Control Center) software<sup>2</sup> allows gamers to quickly and easily adjust the monitor without complicated operations from OSD, while its 'Gaming Tools' settings offer special gaming tools to help you win the game. The stylish and sturdy monitor stand lets you lift, tilt, pivot, and swivel it to your preferred height and angle for the most comfortable viewing experience while indulging in long hours of E-sports or binge-watching your favorite shows. The immersive visual experience is complemented with the rich sound of the dual 3W speakers. The Legion Y25-30 monitor also makes room to expand this experience to other external devices with connectivity through HDMI 2.0, DP 1.4, and USB ports.

<sup>1</sup> AMD FreeSync™ Premium only can work with AMD Radeon™ series graphics card. | <sup>2</sup> This software can only be used with Windows 10.
