EVO CHECK WITH MAGSAFE

FOR THE iPhone 14 RANGE

Our signature case, Evo Check offers up to 16ft multi-drop protection thanks to its innovative FlexShock™ impact material and enhanced levels of protection around the camera to keep it safe from damage. It has magnets built into its design to ensure full charge from MagSafe chargers and accessories.

Ready for Impact

This case is made with FlexShock™, a patented material that absorbs the impact so the phone doesn't have to – time and time again from drops up to 4.9m.

Feel the Power of MagSafe

The magnets integrated into the design of the case ensure the device reaches the full power of MagSafe chargers and accessories.
