

iPhone 14 Plus

Designed by Apple in California
Assembled in India

Includes: iPhone 14 Plus and USB-C to Lightning Cable; power adapter and headphones sold separately.
Supports: GSM, UMTS, LTE, and 5G (sub-6 GHz, mmWave) • Wi-Fi, Bluetooth, NFC, and GPS • Some capabilities not available and depend on region, wireless plan, and network • For LTE and 5G, see apple.com/iphone/cellular • Hearing aid compatible • More at apple.com/iphone/compare.

Requires: Wireless plan (may include restrictions on switching providers and roaming, even after contract expiration) • eSIM • Apple ID (for some features) • Internet access • Acceptance of software license at apple.com/legal/sla. Battery life and charge cycles vary with use and settings. Battery may eventually need replacement. 1GB = 1 billion bytes; actual formatted capacity less.

FCC ID: BCG-E8139A
IC: 579C-E8139A
