

ICE GRIP

FOSCO ICE GRIPS are the perfect solution to your winter worries. Walk on ice, snow, mud and wet grass with more confidence and less risk of slipping and injury. FOSCO ICE GRIPS allow anyone to walk safely in poor conditions.

Perfect For:

Outdoor Workers

Elderly

Sportsmen

Business People

Anyone who wants extra stability, safety and traction.

How to use:

Loosen Velcro strap and slide shoe into FOSCO ICE GRIP with spikes facing down from the shoe. Adjust spikes to be located approximately under the ball of your foot. Tighten strap around the shoe and secure Velcro to assure FOSCO ICE GRIP are held in place. If additional length is needed, use included Velcro extension.

CAUTION: Traction Cleats should not be used for driving, rock climbing, climbing ladders or while indoors. Extreme caution should be used on any hard polished surface such as steel, ceramics or granite. Traction Cleats can not prevent all falls. Always use caution when walking on slippery surfaces!
