Select the file or picture you need to print——Choose correct size & correct printer name when printing.

Name: POS120L

Setting Paper Size (NOTE:If the size you want is not available, you can customize the size.)

LED Status

Light	Description	Troubleshoot
Green	Normal operation	
Flashing Red and Green	Printer head is overheated	Printer will automatically resume once the printer head has cooled down.
Flashing Red (every 2 seconds)	Paper shortage	Be sure that the printer paper is loaded correctly. You may need to run automatic label
Flashing Red (twice every second)	Cover is not closed	Check that the cover is completely closed.

Maintenance

1. Turn the printer off, remove the power cord,and open the cover.
2. Wait until the printer head cools down.
The printer head may be very hot after printing.
3. Completely clean printer head using an alcohol swap (not water).
4. Wait until the alcohol has completely vaporized, then close the cover.
5. Connect the power cord and print a test page to check if it is clean.

NOTICE
Ensure poweris off when performing maintenance.
Do not touch or scratch the printer head surface, roller, or sensors.
Avoid using gas, acetone, or other organic solvents.

PRO TIPS
Anytime you change your label, run the automatic label identification.
Press the button on the printer to get check-page on the printer to skip a blank label.
To run a self-test, press and hold the feeder button until you hear two short beeps.
Avoid using poor quality labels as they can damage the printer.
Regularly clean the printer head.
If paper is jammed, turn off the printer, and allow the printer head to cool down. Open the cover and ensure that the rubber is clean. If dirty,use alcohol to clean. Allow the area to dry off before turning the printer on.
Insert this printer into the same USB port on your computer every time. This will avoid creating duplicate copies of the printer in your operating system.

Safty notices

The printer head can become very hot after printing labels. Do not touch the printer head.

Do not bend the power cord excessively or place objects on the cord.

Do not use the printer if you find any irregularities as these could result in fire or electrocution.

Keep the printer out of reach of children.

Use only approved accessories and do not try to disassemble or repair the unit by yourself.

Keep the printer away from water and other objects that could penetrate the components.

Please unplug the printer when it is not in use for long periods of time.
