ASUS Recycling/Takeback Services

ASUS recycling and takeback programs come from our commitment to the highest standards for protecting our environment. We believe in providing solutions for you to be able to responsibly recycle our products, batteries, other components, as well as the packaging materials. Please go to <http://csr.asus.com/english/Takeback.htm> for the detailed recycling information in different regions.

REACH

Complying with the REACH (Registration, Evaluation, Authorisation, and Restriction of Chemicals) regulatory framework, we published the chemical substances in our products at ASUS REACH website at <http://csr.asus.com/english/REACH.htm>

Federal Communications Commission Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference; and
- This device must accept any interference received including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and radiate radio frequency energy and, if not installed and used in accordance with manufacturer's instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The use of shielded cables for connection of the monitor to the graphics card is required to assure compliance with FCC regulations. Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Lithium Battery Warning

CAUTION: Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type recommended by the manufacturer. Dispose of used batteries according to the manufacturer's instructions.

MISE EN GARDE: Danger d'explosion si la pile n'est pas remplacée correctement. Remplacer uniquement avec une pile de type semblable ou équivalent, recommandée par le fabricant. Mettez au rebut les batteries usagées conformément aux instructions du fabricant.

IC: Canadian Compliance Statement

Complies with the Canadian ICES-003 Class B specifications. This device complies with RSS 210 of Industry Canada. This Class B device meets all the requirements of the Canadian interference-causing equipment regulations.

This device complies with Industry Canada license exempt RSS standard(s). Operation is subject to the following two conditions: this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil numérique de la Classe B est conforme à la norme NMB-003 du Canada. Cet appareil numérique de la Classe B respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.

Cet appareil est conforme aux normes CNR exemptes de licence d'Industrie Canada. Le fonctionnement est soumis aux deux conditions suivantes.

(1) cet appareil ne doit pas provoquer d'interférences et

(2) cet appareil doit accepter toute interférence, y compris celles susceptibles de provoquer un fonctionnement non souhaité de l'appareil.

Canadian Department of Communications Statement

This digital apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus set out in the Radio Interference Regulations of the Canadian Department of Communications.

This class B digital apparatus complies with Canadian ICES-003.

KC: Korea Warning Statement

B급 기기 (가정용 방송통신기자재)

이 기기는 가정용(B급) 전자파적합기기로서 주로 가정에서 사용하는 것을 목적으로 하며, 모든 지역에서 사용할 수 있습니다.

*상대 무선설비는 전파혼란 가능성이 있으므로 인명안전과 관련된 서비스는 할 수 없습니다.

VCCI: Japan Compliance Statement

VCCI Class B Statement

この装置は、クラスB情報技術装置です。この装置は、家庭環境で使用することを目的としていますが、この装置がラジオやテレビジョン受信機に近接して使用されると、受信障害を引き起こすことがあります。

取扱説明書に従って正しい取り扱いをして下さい。

This is a Class B product based on the standard of the VCCI Council. If this is used near a radio or television receiver, it may cause radio interference. Install and use equipment according to the instruction manual.

Equipment registered based on the confirmation measurement at the user installation site.

この装置は、現在設置されている場所で結露波の測定がされた情報技術装置であり、VCCI協会の基準に適合しています。

従って、現在設置されている場所以外で使用する場合は、再び結露波を測定し、VCCIに届け出をしなければなりません。

This is a product for which interference was measured at the present installation site and confirmed to comply with the standard of Voluntary Control Council for Interference by Information Technology Equipment (VCCI). Before using the equipment at any location other than the present installation site, the member shall measure interference for confirmation and register the result to VCCI.

RF Equipment Notices

CE: European Community Compliance Statement

The equipment complies with the RF Exposure Requirement 1999/519/EC, Council Recommendation of 12 July 1999 on the limitation of exposure of the general public to electromagnetic fields (0–300 GHz). This wireless device complies with the R&TTE Directive.

Wireless Radio Use

This device is restricted to indoor use when operating in the 5.15 to 5.25 GHz frequency band.

Exposure to Radio Frequency Energy

The radiated output power of the Wi-Fi technology is below the FCC radio frequency exposure limits. Nevertheless, it is advised to use the wireless equipment in such a manner that the potential for human contact during normal operation is minimized.

FCC Bluetooth Wireless Compliance

The antenna used with this transmitter must not be colocated or operated in conjunction with any other antenna or transmitter subject to the conditions of the FCC Grant.

Bluetooth Industry Canada Statement

This Class B device meets all requirements of the Canadian interference-causing equipment regulations.

Cet appareil numérique de la Class B respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.

BSMI: Taiwan Wireless Statement

無線設備的警告聲明

該型式經符合標之低功率射頻電機。非經許可，公司、商號或使用者均不得擅自變更結構。加大功率或變更原設計之特性及功能。低功率射頻電機之使用不得影響飛航安全及干擾合法通訊；若發現有害干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。前項合法通訊指依電信法規定作業之無線電波。低功率射頻電機須接受合法通訊事業、科學及醫療用電波輻射性電機設備之干擾。

於 5.25GHz 至 5.35GHz 區域內操作之
無線設備的警告聲明

工作頻率 5.250 ~ 5.350GHz 須預限於室內使用。

Japan RF Equipment Statement

此為電磁品。周波數範圍5.15～5.35GHzで動作していません。屋内での使用が原則です。

이 기기는 인명안전과 관련된 서비스에 사용할 수 없습니다.

Safety information

Disconnect the AC power and peripherals before cleaning. Wipe the Desktop PC using a clean cellulose sponge or chamois cloth dampened with solution of nonabrasive detergent and a few drops of warm water then remove any extra moisture with a dry cloth.

- **DO NOT** place on uneven or unstable work surfaces. Seek servicing if the casing has been damaged.
- **DO NOT** expose to dirty or dusty environments. **DO NOT** operate during a gas leak.
- **DO NOT** place or drop objects on top and do not shove any foreign objects into the Desktop PC.
- **DO NOT** expose to strong magnetic or electrical fields.
- **DO NOT** expose to or use near liquids, rain, or moisture. **DO NOT** use the modem during electrical storms.
- Battery safety warning: **DO NOT** throw the battery in fire. **DO NOT** short circuit the contacts. **DO NOT** disassemble the battery.
- Use this product in environments with ambient temperatures between 0°C (32°F) and 40°C (104°F).
- **DO NOT** cover the vents on the Desktop PC to prevent the system from getting overheated.
- **DO NOT** use damaged power cords, accessories, or other peripherals.
- To prevent electrical shock hazard, disconnect the power cable from the electrical outlet before relocating the system.
- Seek professional assistance before using an adapter or extension cord. These devices could interrupt the grounding circuit.
- Ensure that your power supply is set to the correct voltage in your area. If you are not sure about the voltage of the electrical outlet you are using, contact your local power company.
- If the power supply is broken, do not try to fix it by yourself. Contact a qualified service technician or your retailer.

Hazardous moving parts. Desktop should be completely shutdown before servicing product. Replacing fan components should only be attempted by qualified service personnel.

Hazardous Moving Parts Warning

WARNING: Keep fingers and other body parts away from any moving parts.

Conventions used in this guide

To ensure that you perform certain tasks properly, take note of the following symbols used throughout this manual.

DANGER/WARNING: Information to prevent injury to yourself when trying to complete a task.

CAUTION: Information to prevent damage to the components when trying to complete a task.

IMPORTANT: Instructions that you **MUST** follow to complete a task.

NOTE: Tips and additional information to help you complete a task.

Where to find more information

Refer to the following sources for additional information and for product and software updates.

ASUS websites

The ASUS website provides updated information on ASUS hardware and software products. Refer to the ASUS website www.asus.com.

ASUS Local Technical Support

Visit ASUS website at <http://support.asus.com/contact> for the contact information of local Technical Support Engineer.

Chapter 1

Getting started

Welcome!

Thank you for purchasing the ASUS Desktop PC!

The ASUS Desktop PC provides cutting-edge performance, uncompromised reliability, and user-centric utilities. All these values are encapsulated in a stunningly futuristic and stylish system casing.

Read the ASUS Warranty Card before setting up your ASUS Desktop PC.

Getting to know your computer

Illustrations are for reference only. The ports, their locations and the chassis color vary with different models.

Front

1 Power button. Press this button to turn on your computer.

2 Optical disk drive bay. There is an optical disk drive in this bay.

3 Optical disk drive eject button. Press this button to eject the optical disk drive tray.

4 USB 3.1 Gen1 ports. These ports connect to USB 3.1 Gen1 devices such as a mouse, printer, scanner, camera, PDA, and others.

- DO NOT connect a keyboard / mouse to any USB 3.1 Gen1 port when installing Windows® operating system.
- Due to USB 3.1 Gen1 controller limitations, USB 3.1 Gen1 devices can only be used under a Windows® OS environment and after USB 3.1 Gen1 driver installation.
- USB 3.1 Gen1 devices can only be used as data storage only.
- We strongly recommend that you connect USB 3.1 Gen1 devices to USB 3.1 Gen1 ports for faster and better performance for your USB 3.1 Gen1 devices.

5 Microphone port. This port connects to a microphone.

6 Headphone port. This port connects to a headphone or speaker.

7 LED Lighting Effect. Customizable via the lighting control in ASUS Command, this LED lighting effect shows through the pattern.

Rear

1 **USB 3.1 Gen2 ports.** These 9-pin Universal Serial Bus (USB) ports connect to USB 3.1 Gen2 devices.

2 **USB 3.1 Gen1 ports.** These ports connect to USB 3.1 Gen1 devices such as a mouse, printer, scanner, camera, PDA, and others.

- DO NOT connect a keyboard / mouse to any USB 3.1 Gen1 port when installing Windows® operating system.
- Due to USB 3.1 Gen1 controller limitations, USB 3.1 Gen1 devices can only be used under a Windows® OS environment and after USB 3.1 Gen1 driver installation.
- USB 3.1 Gen1 devices can only be used as data storage only.
- We strongly recommend that you connect USB 3.1 Gen1 devices to USB 3.1 Gen1 ports for faster and better performance for your USB 3.1 Gen1 devices.

- 3 **LAN (RJ-45) port.** This port allows Gigabit connection to a Local Area Network (LAN) through a network hub.

Activity/Link LED		Speed LED	
Status	Description	Status	Description
OFF	No link	OFF	10Mbps connection
ORANGE	Linked	ORANGE	100Mbps connection
BLINKING	Data activity	GREEN	1Gbps connection

- 4 **Line In port (light blue).** This port connects to a tape, CD, DVD player, or other audio sources.
- 5 **Line Out port (lime).** This port connects to a headphone or speaker. In a 4.1, 5.1, or 7.1-channel configuration, the function of this port becomes Front Speaker Out. Supported by ASUS Audio Wizard.
- 6 **Microphone port (pink).** This port connects to a microphone.
- 7 **Center/Subwoofer port (orange).** This port connects to the center/subwoofer speakers.
- 8 **Rear Speaker Out port (black).** This port connects to the rear speakers in a 4, 6, and 8-channel audio configuration.
- 9 **Optical S/PDIF out port.** This port allows you to connect your PC to amplified speakers, headphones, or Sony/Phillips Digital Interconnect Format (S/PDIF) compliant devices.

Refer to the audio configuration table below for the function of the audio ports in a 2.1, 4.1, 5.1, or 7.1-channel configuration.

Audio 2.1, 4.1, 5.1, or 7.1-channel configuration

Port	Headset 2.1-channel	4.1-channel	5.1-channel	7.1-channel
Light Blue	Line In	Line In	Line In	Side Speaker Out
Lime	Line Out	Front Speaker Out	Front Speaker Out	Front Speaker Out
Pink	Mic In	Mic In	Mic In	Mic In
Orange	-	-	Center/Subwoofer	Center/Subwoofer
Black	-	Rear Speaker Out	Rear Speaker Out	Rear Speaker Out

10 **ASUS Graphics Cards.** The display output ports on these optional ASUS Graphics Cards may vary with different models.

11 **USB 3.1 Gen2 Type C port.** This Universal Serial Bus (USB) Type C port is for USB 3.1 Gen2 mobile or peripheral devices.

12 **Power jack 1.** This port connects to a 180W adapter (Dual adapters needed on selected models).

Adapter rating:

- **180W**

Input rating: 100-240V ~ 50-60Hz 2.34A

Output rating: 19.5V 9.23A

13 **Power jack 2.** This port connects to a 230W adapter (Dual adapters needed on selected models).

Adapter rating:

- **230W**

Input rating: 100-240V ~ 3.2A 50-60Hz

Output rating: 19.5V 11.8A

14 **Air vents.** These vents allow air ventilation.

DO NOT block the air vents on the chassis. Always provide proper ventilation for your computer.

15 **USB 3.1 Gen1 ports.** These ports connect to USB 3.1 Gen1 devices such as a mouse, printer, scanner, camera, PDA, and others.

Setting up your computer

This section guides you through connecting the main hardware devices, such as the external monitor, keyboard, mouse, and power cord, to your computer.

Connecting an external monitor

To connect an external monitor:

1. Connect your monitor to the graphic output port of the discrete graphic card.
2. Plug the monitor to a power source.

Connecting a USB keyboard and a USB mouse

Connect a USB keyboard and a USB mouse to the USB ports on the rear panel of your computer.

Turning your computer ON

This section describes how to turn on your computer after setting up your computer.

Turning your computer ON

To turn your computer ON:

1. Turn your monitor ON.
2. Press the power button on your computer.

3. Wait until the operating system loads automatically.

For details on shutting down your Desktop PC, refer to the **Windows® 10 User Manual**, which can be found in this manual.

Chapter 2

Connecting devices to your computer

Connecting a USB storage device

This desktop PC provides USB 2.0/1.1, USB 3.1 Gen1 and USB 3.1 Gen2 ports on the front and rear panels. The USB ports allow you to connect USB devices such as storage devices.

To connect a USB storage device:

- Insert the USB storage device to your computer.

Front panel

Rear panel

Connecting microphone and speakers

This desktop PC comes with microphone ports and speaker ports on both the front and rear panels. The audio I/O ports located on the rear panel allow you to connect 2.1-channel, 4.1-channel, 5.1-channel, and 7.1-channel stereo speakers.

Connecting Headphone and Mic

Connecting 2.1-channel Speakers

Connecting 4.1-channel Speakers

Connecting 5.1-channel Speakers

Connecting 7.1-channel Speakers

Connecting multiple external displays

Your desktop PC may come with VGA, HDMI, or DVI ports and allows you to connect multiple external displays.

Setting up multiple displays

When using multiple monitors, you are allowed to set display modes. You can use the additional monitor as a duplicate of your main display, or as an extension to enlarge your Windows desktop.

To set up multiple displays:

1. Turn off your computer.
2. Connect the two monitors to your computer and connect the power cords to the monitors. Refer to Setting up your computer section in Chapter 1 for details on how to connect a monitor to your computer.

3. Turn on your computer.
4. From the Start menu, click **Settings > System > Display**.
5. Configure the settings for your displays.

For some graphic cards, only the monitor that is set to be the primary display has display during POST. The dual display function works only under Windows.

Chapter 3

Using your computer

Proper posture when using your Desktop PC

When using your Desktop PC, maintaining the proper posture is necessary to prevent strain to your wrists, hands, and other joints or muscles. This section provides you with tips on avoiding physical discomfort and possible injury while using and fully enjoying your Desktop PC.

To maintain the proper posture:

- Position your computer chair to make sure that your elbows are at or slightly above the keyboard to get a comfortable typing position.
- Adjust the height of your chair to make sure that your knees are slightly higher than your hips to relax the backs of your thighs. If necessary, use a footrest to raise the level of your knees.
- Adjust the back of your chair so that the base of your spine is firmly supported and angled slightly backward.
- Sit upright with your knees, elbows and hips at an approximately 90° angle when you are at the PC.
- Place the monitor directly in front of you, and turn the top of the monitor screen even with your eye level so that your eyes look slightly downward.
- Keep the mouse close to the keyboard, and if necessary, use a wrist rest for support to reduce the pressure on your wrists while typing.
- Use your Desktop PC in a comfortably-lit area, and keep it away from sources of glare such as windows and straight sunlight.
- Take regular mini-breaks from using your Desktop PC.

Using the optical drive

Inserting an optical disc

To insert an optical disc:

1. While your system is on, press the eject button to open the tray.
2. Place the disc on the optical drive with the label side outward if the desktop is positioned vertically and the label side up if the desktop is positioned horizontally.
3. Push the tray gently to close it.
4. Select a program from the AutoPlay window to access your files.

If AutoPlay is NOT enabled in your computer, to access the data on an optical disc:

- From the Start menu, click **File Explorer**, and then double-click the CD/DVD drive icon.
-

Removing an optical disc

To remove an optical disc:

1. While the system is on, do either of the following to eject the tray:
 - Press the eject button below the drive bay cover.
 - From the Start menu, click **File Explorer**, right-click the CD/DVD drive icon, and click **Eject**.
2. Remove the disc from the disc tray.

Chapter 4

Connecting to the Internet

Wired connection

Use an RJ-45 cable to connect your computer to a DSL/cable modem or a local area network (LAN).

Connecting via a DSL/cable modem

To connect via a DSL/cable modem:

1. Set up your DSL/cable modem.

Refer to the documentation that came with your DSL/cable modem.

2. Connect one end of an RJ-45 cable to the LAN (RJ-45) port on the rear panel of your computer and the other end to a DSL/cable modem.

3. Turn on the DSL/cable modem and your computer.
4. Configure the necessary Internet connection settings.

-
- Contact your network administrator for details or assistance in setting up your Internet connection.
 - For more details, refer to the sections **Configuring a dynamic IP/PPPoE network connection** or **Configuring a static IP network connection**.
-

Connecting via a local area network (LAN)

To connect via a LAN:

1. Connect one end of an RJ-45 cable to the LAN (RJ-45) port on the rear panel of your computer and the other end to your LAN.

2. Turn on your computer.
3. Configure the necessary Internet connection settings.

-
- Contact your network administrator for details or assistance in setting up your Internet connection.
 - For more details, refer to the sections **Configuring a dynamic IP/PPPoE network connection** or **Configuring a static IP network connection**.
-

Configuring a dynamic IP/PPPoE network connection

To configure a dynamic IP/PPPoE network connection:

1. Launch **Network and Sharing Center** in either of these two ways:
 - a) From the taskbar, right-click , then click **Open Network and Sharing Center**.
 - b) From the Start menu, click **Settings > Network & Internet > Ethernet > Network and Sharing Center**.
2. From the Open Network and Sharing Center screen, click **Change Adapter settings**.
3. Right-click on your LAN and select **Properties**.
4. Click **Internet Protocol Version 4(TCP/IPv4)** and click **Properties**.

5. Click **Obtain an IP address automatically** and click **OK**.

Continue to the next steps if you are using PPPoE connection.

- Return to the **Network and Sharing Center** and then click **Set up a new connection or network**.

- Select **Connect to the Internet** and click **Next**.

- Select **Broadband (PPPoE)** and click **Next**.
- Follow the next onscreen instructions to complete the setup.

Configuring a static IP network connection

To configure a static IP network connection:

- Repeat steps 1 to 4 of the previous section.
- Click **Use the following IP address**.
- Enter the IP address, Subnet mask and Gateway from your service provider.
- If needed, enter the preferred DNS Server address and alternative address.
- When done, click **OK**.

Wi-Fi connection (on selected models only)

Connect your computer to the Internet through a wireless connection.

To establish a wireless connection, you need to connect to a wireless access point (AP).

To increase the range and sensitivity of the wireless radio signal, connect the external antennas to the antenna connectors on the ASUS WLAN Card.

Chapter 5

Troubleshooting

Troubleshooting

This chapter presents some problems you might encounter and the possible solutions.

? *My computer cannot be powered on and the power LED on the front panel does not light up.*

- Check if your computer is properly connected.
- Check if the wall outlet is functioning.
- Check if the Power Supply Unit is switched on. Refer to the section **Turning your computer ON** in Chapter 1.

? *My computer hangs.*

- Do the following to close the programs that are not responding:
 1. Simultaneously press <Alt> + <Ctrl> + <Delete> keys on the keyboard, then click **Task Manager**.
 2. Select the program that is not responding, then click **End Task**.
- If the keyboard is not responding, press and hold the Power button on the top of your chassis until the computer shuts down. Then press the Power button to turn it on.

? *I cannot connect to a wireless network using the ASUS WLAN Card (on selected models only)?*

- Ensure that you enter the correct network security key for the wireless network you want to connect to.
- Connect the external antennas (optional) to the antenna connectors on the ASUS WLAN Card and place the antennas on the top of your computer chassis for the best wireless performance.

? *The arrow keys on the number key pad are not working.*

Check if the Number Lock LED is off. When the Number Lock LED is on, the keys on the number key pad are used to input numbers only. Press the Number Lock key to turn the LED off if you want to use the arrow keys on the number key pad.

? *No display on the monitor.*

- Check if the monitor is powered on.
- Ensure that your monitor is properly connected to the video output port on your computer.
- If your computer comes with a discrete graphics card, ensure that you connect your monitor to a video output port on the discrete graphics card.
- Check if any of the pins on the monitor video connector is bent. If you discover bent pins, replace the monitor video connector cable.
- Check if your monitor is plugged to a power source properly.
- Refer to the documentation that came with your monitor for more troubleshooting information.

? *When using multiple monitors, only one monitor has display.*

- Ensure that the both monitors are powered on.
- During POST, only the monitor connected to the VGA port has display. The dual display function works only under Windows.
- When a graphics card is installed on your computer, ensure that you connect the monitors to the output port on the graphics card.
- Check if the multiple displays settings are correct.

? *My computer cannot detect my USB storage device.*

- The first time you connect your USB storage device to your computer, Windows automatically installs a driver for it. Wait for a while and go to My Computer to check if the USB storage device is detected.
- Connect your USB storage device to another computer to test if the USB storage device is broken or malfunctions.

? *I want to restore or undo changes to my computer's system settings without affecting my personal files or data.*

You can use Windows[®] 10 **Refresh your PC without affecting your files** recovery option to restore or undo changes to your computer's system settings without affecting your personal data such as documents or photos. To use this recovery option, click **Settings > Update & recovery > Recovery** from the Start menu, select **Refresh your PC without affecting your files**, and click **Get started**.

? *The picture on the HDTV is distorted.*

- It is caused by the different resolutions of your monitor and your HDTV. Adjust the screen resolution to fit your HDTV. To change the screen resolution:
 - From the Start menu, click **Settings > System > Display**.

? *My speakers produce no sound.*

- Ensure that you connect your speakers to the Line out port (lime) on the front panel or the rear panel.
- Check if your speak is connected to an electrical source and turned on.
- Adjust your speakers' volume.
- Ensure that your computer's system sounds are not Muted.
 - If it is muted, the volume icon is displayed as . To enable the system sounds, click  from the Windows notification area, then click .
 - If it is not muted, click  and drag the slider to adjust the volume.
- Connect your speakers to another computer to test if the speakers are working properly.

? *The DVD drive cannot read a disc.*

- Check if the disc is placed with the label side facing up.
- Check if the disc is centered in the tray, especially for the discs with non-standard size or shape.
- Check if the disc is scratched or damaged.

? *The DVD drive eject button is not responding.*

1. Hover your mouse pointer over the lower left corner of Windows® desktop then right-click on the Start Screen's thumbnail. From the popup menu, click **File Explorer** to open the **Computer** screen.
2. Right-click  , then click **Eject** from the menu.

Power

Problem	Possible Cause	Action
No power (The power indicator is off)	Incorrect power voltage	<ul style="list-style-type: none"> • Set your computer's power voltage switch to your area's power requirements. • Adjust the voltage settings. Ensure that the power cord is unplugged from the power outlet.
	Your computer is not turned on.	Press the power key on the front panel to ensure that your computer is turned on.
	Your computer's power cord is not properly connected.	<ul style="list-style-type: none"> • Ensure that the power cord is properly connected. • Use other compatible power cord.
	PSU (Power supply unit) problems	Contact the ASUS Service Center about installing another PSU on your computer.

Display

Problem	Possible Cause	Action
No display output after turning the computer on (Black screen)	The signal cable is not connected to the correct VGA port on your computer.	<ul style="list-style-type: none"> • Connect the signal cable to the correct display port (onboard VGA or discrete VGA port). • If you are using a discrete VGA card, connect the signal cable to the discrete VGA port.
	Signal cable problems	Try connecting to another monitor.

LAN

Problem	Possible Cause	Action
Cannot access the Internet	The LAN cable is not connected.	Connect the LAN cable to your computer.
	LAN cable problems	Ensure the LAN LED is on. If not, try another LAN cable. If it still does not work, contact the ASUS service center.

Starting for the first time

When you start your computer for the first time, a series of screens appear to guide you in configuring the basic settings of your Windows® 10 operating system.

To start your Desktop PC for the first time:

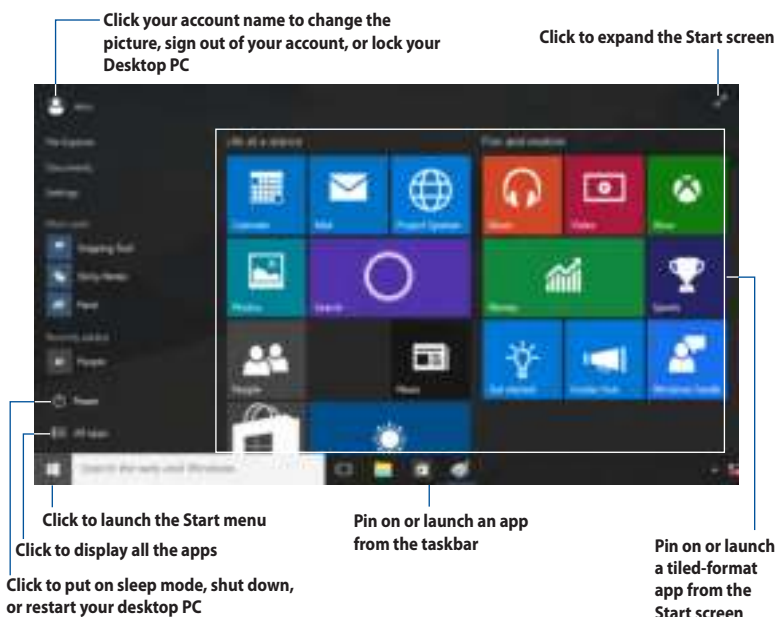

When you start your computer for the first time, a series of screens appear to guide you in configuring the basic settings of your Windows® 10 operating system.

To start your Desktop PC for the first time:

1. Press the power button on your Desktop PC. Wait for a few minutes until the setup screen appears.
2. From the setup screen, pick your region and language that you want to use on your desktop PC.
3. Carefully read the License Terms, then tap **I Accept**.
4. Follow the onscreen instructions to configure the following basic items:
 - Personalize
 - Get online
 - Settings
 - Your account
5. Wait until Windows® 10 finishes installing the apps and system settings. After the installation, the Windows® 10 desktop appears.

Using the Windows® 10 UI

The Windows® 10 User Interface (UI) includes the favorite Start menu and the tiled-formatted Start screen. It includes the following features you can use while working on your Desktop PC.

Start menu

Windows® 10 brings back the Start menu with some enhancements, such as the space that you can customize with your favorite apps, people, or websites.

You can launch the Start menu in two ways:

- Click the Start button from the lower-left corner of the taskbar.
- Press the Windows® Start key  on your keyboard.

Pinning apps to the Start screen or taskbar

To pin an app to the Start screen or taskbar:

1. From the Start menu, click **All apps**, then select the app that you want to pin.
2. Click **Pin to Start** or **Pin to taskbar** to pin your selected app to the Start screen or taskbar. You can also drag then drop an app to the Start Screen or taskbar to pin it.

Start screen

The Start screen , which appears together with the Start menu, helps organize all the apps you need in just one place. The apps on the Start screen are displayed on tiled-format for easy access.

Some apps require signing in to your Microsoft account before they are fully launched.

Click to restore the
Start screen

Moving apps on the Start screen

You can move apps from the Start screen simply through dragging and dropping the app to your preferred location.

Unpinning apps from the Start screen

To unpin an app from the Start screen, right-click on the app to activate its settings bar then click **Unpin from Start**.

Taskbar

Windows® 10 comes with the standard taskbar, which keeps all your currently running apps or items in the background.

Unpinning apps from the taskbar

1. From the Start screen or taskbar, right-click the app you want to unpin.
2. Click **Unpin from Start** or **Unpin this program from taskbar** to remove the app from the Start screen or taskbar.

Using the Task View

When you have several running apps, you can click  from the taskbar to display all your running apps, and click on an app or item to launch it.

If task view is disabled, click  > **Show Task View button** to display the task view icon .

Snap feature

The Snap feature displays about four apps or more in one screen, allowing you to work or switch among apps.

Using Snap

Use your Desktop PC's mouse or keyboard to activate Snap onscreen.

Using your mouse

- Launch an app, then drag and release on a screen corner to snap it in place.
- Snap another app to your preferred location on the screen.

Using your keyboard

- Launch an app, press  and the arrow keys to select the direction where you want to snap the app in place.
- Snap another app using  and the arrow keys.

Keyboard shortcuts

Using your keyboard, you can also use the following shortcuts to help you launch apps and navigate Windows[®] 10.

	Switches between the Start screen and the last running app
 + <D>	Launches the desktop
 + <E>	Launches File Explorer
 + <F> or  + <W>	Activates the File search function
 + <H>	Launches Share
 + <I>	Launches Settings
 + <K>	Launches Media Connect
 + <L>	Activates the Lock screen
 + <M>	Hides all currently active screens to the taskbar
 + <P>	Your desktop PC is mirrored to your secondary monitor
 + <Q>	Launches Cortana
 + <R>	Launches the Run window
 + <U>	Launches Ease of Access Center
 + <X>	Launches a menu box of Windows tools

 + <+>	Launches the magnifier and zooms in your screen.
 + <->	Zooms out your screen.
 + <Enter>	Opens the Narrator Settings.

Removing everything and reinstalling Windows® 10

Restoring your PC to its original factory settings can be done using the Remove everything and reinstall options in PC Settings. Refer to the steps below to use this option.

Back up all your data before using this option.

This process may take a while to complete.

1. From the Start menu, click **Settings > Update & security > Recovery**.
2. Scroll down to view the **Remove everything and reinstall Windows** option. Under this option, click **Get started**.

3. Follow the onscreen instructions to complete the reinstallation and reset process.
