USB Port

■ How to Use

⏻ Power ON/OFF

Long press 2 seconds to Power ON/OFF

- Indicator light on: Normal running/ Full charged
- Indicator light flash quickly: Error running (Lack of paper, Low battery Indicator, Printing head overheating)
- Indicator light flash slowly :Charging

🔋 Charge

Please plug the device into the USB cable and connect it to 5V/1A adapter or the computer for charging before the first time.

- When the indicator light flashes quickly during charging, check if it means lack of paper, then load the printed paper to ensure normal charging.

  RESET

  If the device does not respond, try to insert the needle/toothpick into the reset hole for 3 seconds and then release.

Double click to
print QR code

■ **Connect to print**

1. Turn on the phone Bluetooth and the APP, allows applications to gain access (photos, media, files etc) of the phone.
2. Then register and login in the APP, connect the device by scan the same QR code printed before.
■ Replace the Thermal Paper

1. Follow the arrow direction to slide and open the device.

Slide to open

2. When replacing, insert the thermal paper. Please attention, the new thermal paper needs to expose the length of the paper 2cm, so that the machine

can automatically absorb paper when loading the paper.

3. Cover the device.

※ **Do not touch the print head to avoid scalding when changing the printing paper after printing.**

■ Parameter

Product Dimension: 85*85*44mm

Print Type: Thermal Printing

Thermal Paper Specification: 57*D30mm (Standard)

Capacity: 800mAh Lithium Battery
Charging Time: About 2-3 Hours
Input: 5V/1A
Charging Port: Type-C

■ Safety Precautions
