WHEEL BY AHCON® TROLLEY

🇩🇰 MADE IN DENMARK

- Wheel Trolley is a brand created in Denmark in 2006.
- All Wheel Trolley models are produced and assembled in Denmark.
- We continuously develop new products and use our large knowhow to make high-quality products.
- We simply love to make it easy, ergonomic and safe to transport wheels and tyres.

WHEEL TROLLEY

The standard version that is compatible with several types of our lifting equipment

A clever transport unit for normal-sized wheels and tyres. The Trolley is designed for either 8 tyres or 4 complete wheels. The Wheel Trolley is compatible with several different types of lifting equipment that can be used to raise the Wheel Trolley up and ensure an ergonomic working height.

Cleveres Transportgerät für Räder und Reifen in normaler Größe. Die Standard Version ist für 8 Reifen oder 4 Kompletträder ausgelegt. Dieser Wheel Trolley ist mit verschiedenen Arten von Hubgeräten kompatibel, die genutzt werden können, um den Wheel Trolley anzuheben und so eine ergonomische Arbeitshöhe zu gewährleisten.

Smart transportenhed til hjul og dæk i normal størrelse. Trolleyen er beregnet til enten 8 dæk eller 4 komplette hjul. Wheel Trolleyen er kompatibel med flere forskellige typer af løfteudstyr, som kan bruges til at hæve Wheel Trolleyen op og sikre en ergonomisk arbejds højde.

TRANSPORTING TYRES AND WHEELS THE EASY WAY

WHEEL BY AHCON® TROLLEY

 **MADE IN DENMARK**

- Wheel Trolley is a brand created in Denmark in 2006.
- All Wheel Trolley models are produced and assembled in Denmark.
- We continuously develop new products and use our large knowhow to make high-quality products.
- We simply love to make it easy, ergonomic and safe to transport wheels and tyres.

WHEEL TROLLEY OFF ROAD

The perfect choice for medium-sized wheels and for driving across uneven surfaces

Wheel Trolley Off Road is with a diameter of 700 mm ideal for loading and transportation of medium-sized wheels and tyres – like van- and 4X4 wheels. Wheel Trolley Off Road is fitted with extra-large casters, making the transport on uneven surfaces easier – for instance across courtyards etc.

Der Wheel Trolley Off Road hat einen Durchmesser von 700 mm und eignet sich damit ideal zur Ladung und zum Transport von mittelgroßen Reifen und Rädern, wie LLKW- und 4X4-Räder. Der Wheel Trolley Off Road ist mit extra großen Rädern ausgestattet, um den Transport über unebene Flächen zu erleichtern – z. B. über Hofanlagen etc.

Wheel Trolley Off Road passer med en diameter på 700 mm til last og transport af mellemstore dæk og hjul såsom varevogns- og 4X4 hjul. Wheel Trolley Off Road er monteret med ekstra store hjul, som letter kørslen henover ujævne underlag – f.eks. henover gårdspladser o.l.

EASY TRANSPORT ON UNEVEN SURFACES

WHEEL BY AHCON® TROLLEY

WHEEL TROLLEY XL

Choose this trolley for transporting extra large and heavy wheels around the workshop

The Wheel Trolley XL is suitable for the transport of SUV wheels, 4x4 wheels, van wheels and other large wheels. It is a completely indispensable tool for handling and transporting large and extra-heavy tyres around the workshop.

Der Wheel Trolley XL ist bestens für den Transport von LLKW-, SUV- und 4X4-Rädern, sowie anderen größeren Rädern geeignet. Dieser Trolley ist bei Handhabung und Transport der großen und besonders schweren Räder in der Werkstatt absolut unentbehrlich.

Wheel Trolley XL passer til transport af SUV hjul, 4X4 hjul, varevognshjul og andre større hjul. Denne trolley er helt uundværlig til håndtering og transport af de store og ekstra tunge hjul på værkstedet.

WHEEL TROLLEY EASY LIFT

Automatic adjustment of the height according to the load placed on the top

Elevated Wheel Trolley, which, with the help of springs, raises and lowers according to load. A brilliant feature, when you wish to save yourself for heavy lifting and relieve knees and back. Use it when mounting and dismounting wheels, and for an ergonomic connection to the Tyre changer. Wheel Trolley Easy Lift can improve the work environment considerably when handling tyres. Good ergonomics with just a small investment.

Der Wheel Trolley, der sich dank Federn bei Belastung hebt und senkt. Eine geniale Eigenschaft, wenn man gern unnötige Hebevorgänge sparen und die Knie und den Rücken entlasten möchte. Er wird für die Montage und Demontage von Rädern verwendet und für die ergonomische Verbindung zur Reifenmontiermaschine benutzt. Der Wheel Trolley Easy Lift hilft, die Arbeitshaltung beim Reifenservice wesentlich zu verbessern. Gute Ergonomie bei kleiner Investition.

Forhøjet Wheel Trolley som via fjedre hæver og sænker sig i forhold til belastning. En genial egenskab, når man gerne vil spare på de tunge løft og aflaste knæ og ryg. Anvendes ved af- og påmontering af hjul samt som en ergonomisk overgang til dækskiftmaskinen. Wheel Trolley Easy Lift kan forbedre arbejdsmiljøet ved dækhåndtering betragteligt. God ergноми for en lille investering.

- We simply love to make it easy, ergonomic and safe to transport wheels and tyres.

WHEEL TROLLEY EXTENDED

The cleverly elevated version of the standard trolley, that provides a good working height

The Wheel Trolley Extended is best used with max. 2 wheels at a time. The extra height provides the optimal working height for lifting, and thus an ergonomic optimization of several work situations.

Der Wheel Trolley Extended sollte vorzugsweise mit max. zwei Rädern gleichzeitig benutzt werden. Die zusätzliche Höhe bewirkt eine Arbeitshöhe, die zum Heben optimal ist und so viele Arbeitsgänge ergonomisch optimiert.

Wheel Trolley Extended anvendes fortrinsvist med max. 2 hjul ad gangen. Den ekstra højde giver den optimale arbejds højde i forhold til løft – og dermed en ergonomisk optimering af flere arbejds situationer.

WHEEL TROLLEY XL EXTENDED

The XL Wheel Trolley with a good and ergonomically working height

Wheel Trolley XL Extended is used with 2 pcs. van-, SUV- or 4X4 wheels at a time. The raised Wheel Trolley XL enables an optimal working height for handling heavy and large wheels – and optimizes the ergonomics and many processes in tyre and car workshops.

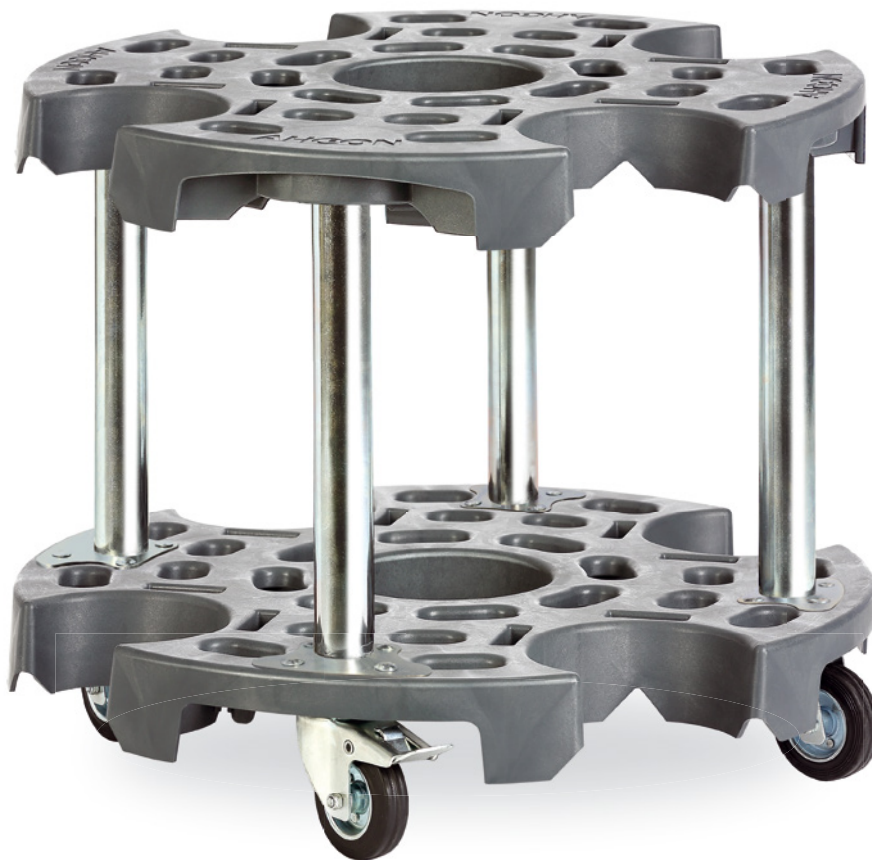

Der Wheel Trolley XL Extended wird mit jeweils 2 LLKW-, SUV- oder 4X4-Rädern verwendet. Er ermöglicht eine ergonomische Arbeitshöhe bei der Handhabung von großen und schweren Reifen und optimiert damit viele Arbeitsgänge in Reifen- und Autowerkstätten.

Wheel Trolley XL Extended anvendes med 2 stk. varevogns-, SUV- eller 4x4 hjul. Den forhøjede Wheel Trolley XL giver en optimal arbejds højde i arbejdet med tunge og store hjul – og optimerer ergonomien og mange arbejdsgange på dæk- og autoværksteder.

WHEEL PALLET

The square version of the Wheel Trolley for many types of storage

The Wheel Pallet is perfectly suited to mobile storage of various forms of goods, including tyres. In large warehouses and storage facilities for tyres, Wheel Pallets are used for tyre storage.

Der Wheel Pallet ist perfekt für die mobile Aufbewahrung vieler verschiedener Waren geeignet. In großen Reifenhallen und -lagern werden Wheel Pallets vor allem zur Lagerung von Reifen verwendet.

Wheel Pallet egner sig perfekt til mobil opbevaring af mange forskellige former for gods – herunder også dæk. På store dæklagre og i dækhoteller anvendes Wheel Pallets til opmagasinering af dæk.

WHEEL PALLET EXTENDED

Storage and transport at a height that your back and knees will love

Wheel Pallet Extended enables storage of both tyres as well as other parts in a good and ergonomic working height. Wheel Pallet Extended is divided into two parts, making it possible to lift the upper plate and legs off the lower plate. Also ideal as rolling table, side table or mobile working table.

Der Wheel Pallet Extended ermöglicht die Ablage sowohl von Reifen, als auch anderen Materialien in guter und ergonomischer Arbeitshöhe. Der Wheel Pallet Extended ist zweigeteilt, so dass die obere Platte zusammen mit den Beinen von der unteren Platte abgehoben werden kann. Er eignet sich auch als Rollentisch, Ablage oder mobiler Arbeitstisch.

Wheel Pallet Extended giver mulighed for aflægning af såvel hjul som andre elementer i en god og ergonomisk arbejdshøjde. Wheel Pallet Extended er 2-delt, hvor den øverste plade og ben kan løftes af den nederste plade. Også anvendelig som et rullebord, aflæggebord eller mobilt arbejdsbord.

WHEEL CADDY

Fast and ergonomically good transportation of a Wheel Trolley loaded with 4 wheels

The Wheel Caddy is a highly functional tyre and wheel carriage. It is an indispensable helping hand when a Wheel Trolley including wheels is to be transported over slightly longer distances than across the workshop floor. The clever caddy is fitted with large wheels, which makes it easy to run on uneven surfaces, even when loaded.

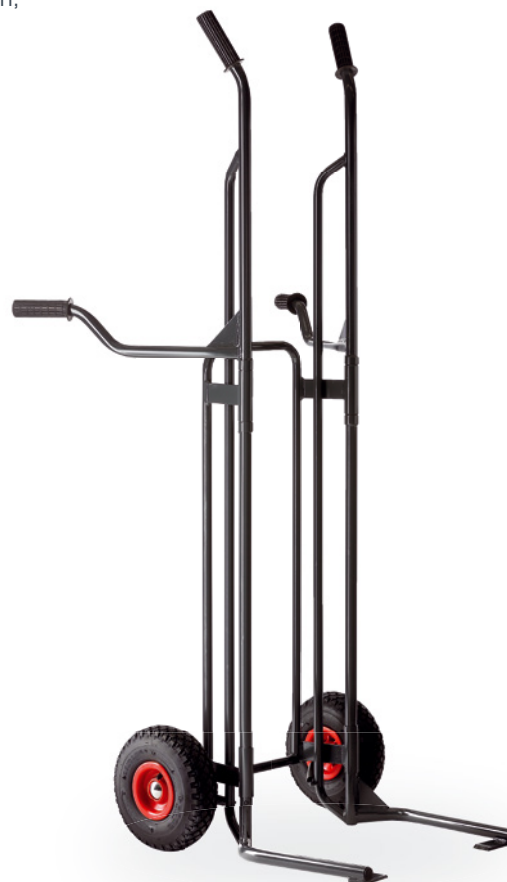

Der Wheel Caddy ist ein äußerst funktioneller Reifen- und Radwagen. Er ist eine unentbehrliche Hilfe beim Transport von mit Rädern beladenen Wheel Trolleys – vor allem bei größeren Distanzen, als lediglich innerhalb der Werkstatt. Der clevere Caddy besitzt große Räder, die das Fahren auf unebenen Oberflächen, auch mit großen Lasten, erleichtern.

Wheel Caddy er en top funktionel dæk- og hjulvogn. Den er en uundværlig hjælpende hånd, når en Wheel Trolley inkl. hjul skal transporteres over lidt større afstande end blot henover værkstedsgulvet. Den smarte caddy er med store hjul, der gør det nemt at køre på ujævnt underlag – også med last.

WHEEL TROLLEY TOWER LIFT 2.0 / 2.1

Pallet truck with many userfriendly features for handling wheels in high tyre racks

Our new models of pallet trucks for handling tyres and wheels in high tyreracks. The use is very similar to model 1.0 – but these versions are with extra features like: Rear view Camera, info-display with 3 driving speeds, higher lifting capacity, hydraulic tilt function, extra battery-capacity and a trolley holder for an extra Wheel Trolley.

With Weel Trolley Tower Lift it is easy, safe and ergonomic to have tyre racks with a height of 5.3 - 6.0 meters.

Unsere neuesten Modelle von Hubfahrzeugen für die Handhabung von Reifen und Rädern in hohen Regalen. Mit dem Vorgängermodell 1.0 vergleichbar, sind diese beiden neuen Modelle mit extra Eigenschaften ausgestattet: Rückfahrkamera, Info-Display, 3 Fahrgeschwindigkeiten, höherer Hubkapazität, hydraulischer Kippfunktion, längerer Akkulaufzeit und einem Halter für einen extra Wheel Trolley.

Mit dem Wheel Trolley Tower Lift ist es einfach, ergonomisch und sicher, auch Reifenregale mit einer Höhe von 5,3 - 6,0 Metern zu erreichen.

Vores nye modeller indenfor løftere til håndtering af dæk og hjul i høje dækreoler. Brugen minder meget om model 1.0 – men disse versioner er med ekstra features såsom: Bak-kamera, infodisplay med 3 kørehastigheder, højere løfteevne, hydraulisk vippe, ekstra batterikapacitet og trolley-holder til en ekstra Wheel trolley.

Med Wheel Trolley Tower Lift er det nemt, sikkert og ergonomisk at bygge dækreoler op til 5,3 - 6,0 meter i højden.
