*Maximum wireless signal rates are the physical rates derived from IEEE Standard 802.11 specifications and wireless coverage are not guaranteed and will vary as a result of network conditions, client device capabilities, and including building materials, obstacles, volume and density of traffic, and client location.

*The product may not be compatible with routers or gateways with firmware that has been altered or is non-standard or outdated.

*Use of MU-MIMO requires clients to also support MU-MIMO.
