FAQ/ Trouble Shooting

4. Contact us via the platforms where you purchase this product .

Be sure to include the proof of purchase and description of product of defects. We have the right to reasonably make all warranty claim decisions.

5. This warranty does not cover damages caused by alteration of parts, removal of parts, tampering, or disassembling.

6. This warranty does not cover damages caused by neglect or improper use.

Q: I have established connection with my smartphone, but I am not hearing any sound?
A: Please make sure that you turn up the volume of both devices.

Some smartphones require you to set up the bluetooth headset as an audio output device before sound is transmitted. Please see the instructions for your smartphone of details. If you are using a music player or other bluetooth device, please make sure it supports A2DP stereo music profile.

Q: Why is the connection not stable and cut out intermittently?

A: Please make sure there are no objects between the headset and your bluetooth device; please make sure there is no radio or WIFI interference nearby.

Tips

- Before using the headset, please read the manual carefully and keep it for future references.
- The headset needs to be fully charged prior to first-time use.
- If the headset is left unused for over two weeks, please recharge it periodically.
- Use USB chargers(5V/1A) only made by qualified manufactures.
- If the headset cannot be found by your device, please check whether it is in pairing mode. If the headset is left unconnected for an extended period of time, the headset will exit pairing mode and will need to be re-entered into pairing mode. If an error occurs on your device, reboot the device. If an error occurs with the headset, reboot and reset the headset.
