

## CAM LINK 4K

### UNLEASH YOUR CAMERA

- Easily connect your DSLR, camcorder, or action cam to your PC or Mac
- Go live on any platform in no time thanks to ultra-low-latency technology
- Broadcast in stunning quality at 1080p60 or even up to 4K at 30 fps
- Shoot and produce within your favorite tools
- Record footage directly to your hard drive without time restrictions

With Cam Link 4K, easily connect your DSLR, camcorder, or action cam to your PC or Mac, and use it as a webcam in your favorite apps. Superb quality at 1080p60 or even up to 4K at 30 frames per second keeps your stream professional. Ultra-low-latency technology gets you up and running on your favorite platform in no time. And your camera has never felt more powerful.

Say goodbye to maxing out your memory card mid-shoot. Or worse, discovering shoddy shots while editing. When recording with Cam Link 4K, all content is stored directly on your hard drive. While real-time, full-screen feedback lets you polish scenes on the spot.

Playing games, unboxing gadgets, mixing beats – whatever makes your world spin – Cam Link 4K puts it live on your computer for effortless mass distribution.
