

INFORMATION DOCUMENT ON DATA USAGE

Seller: Scan Computers LTD

Contact email: Bol@scan.co.uk

Product: Assembled Computer

1. Introduction

This document provides information regarding data usage in relation to the above-mentioned product, in accordance with the provisions of the EU Data Act.

The product consists of an assembled computer delivered without pre-installed data-collecting applications from the seller. The device is capable of being used entirely offline.

2. Generation and Collection of Data

The computer supplied:

- Does not collect any data on behalf of the seller or manufacturer;
- Does not transmit any data to the seller;
- Does not include any proprietary cloud connectivity;
- Is not linked to any application or online platform operated by the seller.

As a hardware supplier, the seller has no technical or functional access to any data stored, processed, or otherwise handled by the end user on the device. The hardware does not facilitate the sharing of data with third parties.

3. Connectivity

The operation of the computer does not require an internet connection, user account registration, or cloud-based services. Any network functionality, including but not limited to Wi-Fi or Ethernet connectivity, is optional and may be enabled or disabled at the sole discretion of the end user.

4. Operating System and Third-Party Software

Where the system is supplied with an operating system (including, but not limited to, Microsoft Windows), such operating system may process telemetry and/or diagnostic data in accordance with the terms and conditions of the relevant software provider.

The end user may independently install additional software, games, or online services that process data. Such activities fall outside the scope of responsibility and control of the seller.

The end user bears sole responsibility for:

- The creation and management of user accounts;
- The use of cloud storage services;

- Participation in online gaming or other online services;
- The installation and use of third-party software.

5. Personal Data

The seller does not process personal data through the product itself.

Any processing of personal data occurs solely as a result of actions undertaken by the end user, including but not limited to:

- Installing software;
- Using online services;
- Activating cloud-based functionalities.

Such processing is governed exclusively by the privacy policies and terms of the respective third-party software or service providers.

6. Access to Data (EU Data Act)

As the product does not generate, collect, or transmit data to the seller or manufacturer:

- No usage data is stored or retained by the seller;
- No product-generated datasets exist that can be accessed, transferred, or made available.

Where the end user utilises third-party software or services, any requests for access to data must be directed to the relevant software or service provider in accordance with their applicable policies.
