**SAFE SIZING FOR JUVENILE AND SIDEWALK BICYCLES**

It is assumed that the bicycle you have bought is sized correctly for the user. Some parents make the mistake of buying a bicycle too large for the intended rider, planning on the child's "growing into" it. There should be a minimum of 1 inch clearance above the highest point of the top tube when the child is straddling the bicycle with both feet on the ground (see drawing below).

**WARNINGS**

Parents/guardians take the responsibility to guide and supervise the kids before and during use of the bike to ensure the safety of the kids. Do not ride on the road to ensure they are well lightened before each ride. Parents are urged to always wear an approved bicycle helmet when riding. Check your child's helmet and ensure it is properly fastened. Let their children onto busy roads until they are experienced cyclists. Every ride, make sure that your bike is in safe operating condition. Check your bike's condition. caused by improper use of the bike. Not allow kid to ride on uneven surfaces. Important Information: BEFORE YOU USE THE BICYCLE, PLEASE CHECK AND MAKE SURE IT IS COMPLETELY NEW. PLEASE CONTACT THE DEALER IF THE PARCEL IS DAMAGED OR BROKEN.
