

Legend tells of a tavern called BARDIG, a place deep in the woods where adventuring pigs go to challenge each other and reign piggy supreme. However, not everyone is allowed into the illustrious BARDIG tavern, and some aren't too happy about it. So when the good pigs are away, the bad pigs break in to play.

**BARDIG - After Hours** is the stand-alone sequel to **BARDIG - The Adventure Party Game**, that can also be combined as a fully modular expansion.

Taking you to the darker side of the tavern, **After Hours** is the easy to learn, pick-up and play pocket-sized party game of hilariously treacherous group shenanigans combined with deliciously vindictive take-that item cards.

Oh, and there will be **EVIL** pigs...
