

## Reptile Systems Clamp Lamp Ceramic spun reflector with handle 100W MEDIUM.

Reptile Systems Clamp Lamp is a fully complete kit containing all the components for the safe use of mercury vapor bulbs and heat lamps installed in a terrarium or vivarium. Ceramic fixture with high reflectance reflector included with multi-directional clamp and removable protective grid. Includes accessories for mounting the lampshade in several ways.

### Specifications:

**Reflector diameter: 14 cm**

**Max voltage: 100W**

**Standard E27 screw fitting**

**Color: black**

**Size: MEDIUM**

### High quality reptile terrarium lamp shade:

This stylish set will help protect lamps, animals and users. It will both insulate and reflect heat light, providing as much energy as possible. It can also be used with compact UV-B lamps and can increase UV-B projection by up to 100% compared to a non-reflective lamp.

- Multi-directional clamp.
- Heat resistant ceramic fitting.
- Heavy gauge, highly reflective aluminium dome.
- Detachable protective mesh cover included.
- In-line on/off switch.
- Includes a bracket for hanging the lampshade.

### Notes:

**Lamp not included.**

**Product designed for use with Self Ballasted Mercury Vapour and Basking Spot bulbs.**
