Save food
4 times longer

Do you have a tight schedule, do you like to prepare your meals in bulk or do you have leftovers from a delicious dinner meal? Use the Handheld Vacuum Sealer Set to store them for up to 4 times longer! The best part is that you will never have to waste plastic bags to vacuum seal your food anymore, just refill and reuse the two containers that come with the set!

High-quality
glass containers

The glass containers (0.7 L and 1.1 L) are safe to use in the microwave, oven, dishwasher, and freezer. This means you can use them to prepare your favourite dishes and vacuum seal them afterwards without having to transfer the contents from one container to another. These high-quality containers also preserve the flavours and nutrients of the food very well while vacuumed.
