Warning! 1. CPU cooler installation: Please ensure that your CPU cooler does NOT exceed 6.4 inch (163.8 mm) in height, it will cause damage to the side panel of the case and the CPU cooler. 2. Please ensure that your graphics card does NOT exceed 12.6 inch (320 mm) in length, it will cause damage to the case and the graphics card.

2. Installation Guide / 安装说明

2.1 How to remove the side panel... 2.2 How to install a radiator... 2.3 How to install the power supply... 2.4 How to install the motherboard... 2.5 How to install the add-on cards... 2.6 How to install the 5.25" and 3.5" devices... 2.6.1 Remove the front bezel...

* Secure by 3.5" tool-free

* Secure by screw

2.7.1 Install 3.5" device... 2.7.2 Install 2.5" HDD / SSD... 2.8.1 Install the front fan (120mm x 2)... 2.8.2 Install the rear fan (80/90/120mm fan x 1)... 2.8.3 Install the left side fan (120/140mm fan x 1)... 2.8.4 Install the right side fan (120 mm fan x 2)...

* Install the front fan (140mm x 1)

* Install the top fan (120mm x 2)

2.9 Completing installation... 2.10 I/O Function panel installation guide...

Table with 2 columns: Motherboard and Case Connector. It lists various I/O ports and their corresponding connections on the motherboard and case.

I/O Function panel installation guide

Please refer to the illustrations in the motherboard user manual that describe USB 3.0, USB 2.0, and audio connector support. The motherboard connectors must match the included front panel cables in this case. Attempting to install anything other than matching connectors may result in damage and loss of function.
