## Blue and white town

Simple blue and white, no excess, let a person feel should have been so everything, vaguely conscious blurs the geographical concept, as if place oneself in the European town.

Very quiet, very beautiful, very leisurely and carefree, let person heart is loosened, the fall in love with here, in the blue and white backdrop, special coordination, very beautiful is very comfortable.

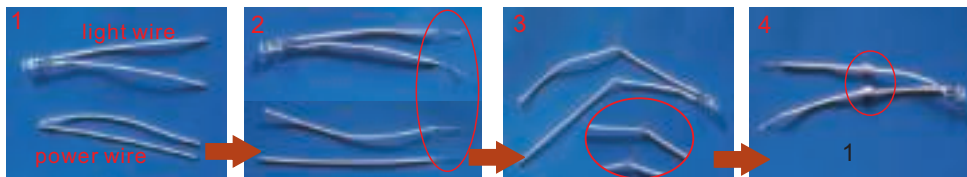

# Installation

## TIPS

1. The picture of the package is the finished, please refer to it.
2. Please prepare tools: ruler, knife, , needle, scissors, tweezers etc.
3. Please follow the template to cut for avoid material loss.
4. Please understand for various batches of materials have a small deviation.
5. Parents must accompany the children to assemble the DIY doll house
6. If you find the wood crude, please use the sandpaper to make it better.
7. Refer to the following picture to test the lamp whether can work normally.
8. Refer to the following steps to connect the batteries with the battery box.

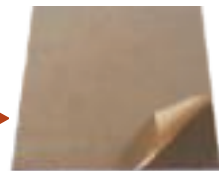

### Connect the extension wire

1. need 2 same long power wires to connect the extension wire
2. To strip the rubber 1cm from one side of the power wire
3. connect the light wire with the power wire
4. use the gummed paper to wrap the two wires

### Method to assemble the dust cover (the dust cover need to buy separately)

1. take out the organic dust sheets

2. rip off the paper from all dust sheets

3. glue the dust sheets to finish the dust cover

4. vertical view of the dust cover

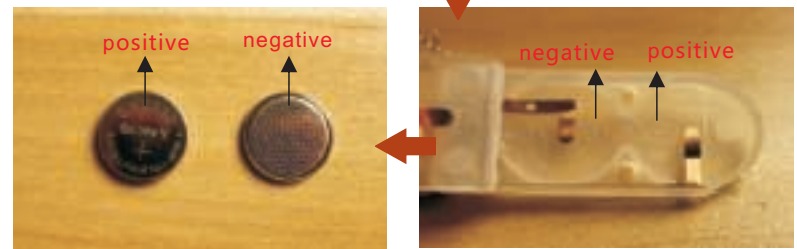

①

### Install battery box

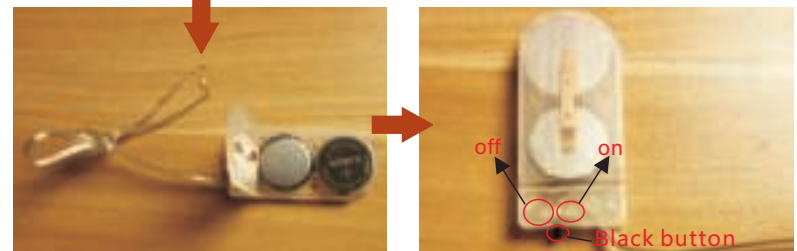

1. take out the battery box

2. open the battery box

4. take out the batteries

3. ("- is negative, "+" is positive)

5. put the batteries into the box

6. use the black button to test the power device

7. finished picture

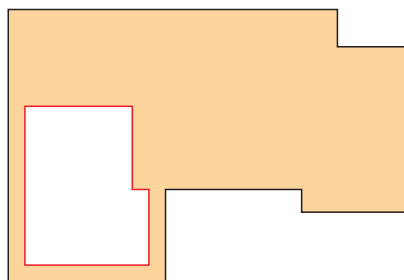

For safe, children under the age of 14 do not do the power device, this step to connect the power wire must be completed with adult supervision
