Multi-Mode Wireless Optical Mouse

M100 Silent

Refined, with a high-quality finish and a convenient non-slip scroll wheel, M100 transmits using Rapoo's latest and powerful multi-mode wireless featuring Bluetooth 3.0, 4.0 and 2.4 GHz. The ergonomic compact design is boosted by a 'silent click' feature, which gives you freedom and a piece of mind since disturbing those around you is no longer a concern.

All this, combined with the high-resolution 1300 DPI sensor, makes surfing and clicking a joy. The included Nano USB receiver can be stowed securely and conveniently within the base of the mouse. To top it off, Rapoo's power-saving technologies offer up to 9 months' battery life.

▶ Multi-mode wireless connection

Interference-free wireless options: The smart switch between Bluetooth 3.0, Bluetooth 4.0 (Smart/ BLE) and 2.4 GHz ensures stable wireless transmission with up to 10 meters range and 360° coverage. You can still use your mouse regardless of USB port shortage or the loss of receiver. M100 automatically pairs the working device. It simultaneously connects to up to 3 devices, and easily switches among them in a click of a button. It simplifies cross-platform activities and meets multi-tasking requirements.

▶ High resolution 1300 DPI sensor

Enjoy total control: The high-performance 1300 DPI optical sensor offers you smooth and accurate mouse-pointer control.

▶ The sound of silence

Click all you want: The silent mouse switches allow you to use your mouse freely without disturbing others. This mouse is perfect for late night projects at home, use at public places and while traveling.

▶ Up to 9 months battery life

Low energy consumption: Rapoo's energy-saving technologies, combined with the on/off switch, means you can use this mouse continuously for up to 9 months.
