

ZOGGS

**UK** Float Bands

Zoggs® Float Bands features dual air chambers with separate Easy Inflat™ non return safety valves allowing buoyancy to be adjusted as wearer's confidence increases.

Made from durable Nylon™ which is not easily torn or punctured.

ZOGGS® BUOYANT DEVICE FOR SWIMMING INSTRUCTION	According to EN 13138-1:2008				
	Class	body weight in kg			
		up to 12	12 to 16	16 to 20	20 to 25
APPLICATION		approx. age group			
To introduce the user to water, passive user (worn)	A				
To introduce the user to swimming strokes, active user (worn)	B				
To be held and to improve part of a stroke, active user (held)	C				

**WARNING:** WILL NOT PROTECT AGAINST DROWNING. USE ONLY UNDER CONSTANT SUPERVISION

**Instructions for use:**

- Slide float bands onto upper arm.
- Inflate:** Squeeze the valve and blow into the chamber. Inflate until firm.
- Close the valve by firmly inserting the stopper.
- Push the valve into the chamber until flush.
- Ensure the flat contoured side sits underneath the arm for optimal comfort.
- Allow the child to enter the water, holding their hand as they do so, once in the water check the buoyancy. When checking buoyancy the water level should be across the shoulders. If necessary adjust the buoyancy by inflating or deflating. **DO NOT LET GO OF YOUR CHILD UNTIL BUOYANCY IS ACHIEVED.**
- To deflate:** Push valve out of chamber, remove stopper and squeeze tube of valve to release air.
- After use rinse in clean water.
- Do not leave exposed to direct sunlight.
- Do not leave inflated after use.

**WARNING:**

USE ONLY UNDER COMPETENT AND CONSTANT SUPERVISION.

SUPERVISION SHOULD ALWAYS BE WITHIN ARMS REACH OF THE WEARER.

ARM BANDS ARE NOT LIFE PRESERVERS ENSURE SECURE FIT ON UPPER ARMS ONLY ENSURE THAT THE STOPPERS ARE FULLY INSERTED BY CHECKING REGULARLY CHECK SEAMS REGULARLY FOR TEARS BY IMMERSING IN WATER AND LOOK FOR AIR BUBBLES OR VISUALLY ASSESSING FOR SIGNS OF LEAKAGE.

IF THERE ARE ANY SIGNS OF WEAR AND TEAR REPLACE PRODUCT IMMEDIATELY.

**Parents please note:** Early encounters by children to water, under competent supervision at all times, helps promote confidence and diminish fear and panic which are among the greatest causes of drowning.

**INFLATE**
