

2.5" SSD/HDD Enclosure SATA 2 – USB 2.0

Introduction

Congratulations on your purchase of this Portable USB2.0 Hard Drive Enclosure. It's a great way of making a lightweight, portable mass storage device with an unused internal hard drive, and it will be detected and installed automatically by the computer when connected. Depending on the capacity of the drive used, you can keep large files, run programs and play videos directly from it, thanks to its super-speed USB2.0 connection. It can also be used as a backup drive to a computer or other devices.

Specification

Transfer interface	USB2.0
Transfer rate	480Mps (MAX)
Support HDD	2.5" Hard disk
Work temperature	-40~65 °C
Work humidity	8%~90%
Storage humidity	5%~95%
Operate system	Windows 2000/XP/VISTA/WIN7/8/10,iOS, MAC OS X and above version

System Requirements

Hardware: computer should have USB port
