

10 LED Twin Head Motion Sensor Security Light

- 2 head security light with 5 LEDs per head
- 160 lumens • 180 degree head rotation
- Motion detection up to 5m

GB 10 LED TWIN HEAD MOTION SENSOR SECURITY LIGHT

The twin head motion sensor security light has 5 LEDs per head and gives a 160 lumen illumination. Each head has 180 degree rotation to focus light wherever it is needed. The light detects motion up to 5m away and will illuminate for 40 seconds. To save power the light will only illuminate in low light. The unit has 2 key slots in the base for easy installation and is powered by 4 AA batteries. Manufactured from ABS plastic.

Product Dimensions (mm) 120x100x100
Batteries 4 x AA (not supplied)
