

Maxtor

English
High conductivity
Excellent storage stability
Highly resistant to oxidation
Highly resistant to water
Highly resistant to dust

Chinese

导热率高
优异的存储稳定性
优异的抗氧化性
优异的耐水性
优异的耐尘性

Spanish
Alta conductividad
Baja resistencia oxidación
Excelente seguridad
Uso e alta seguridad

España

Certificate of approval
-2022-

QC: 007

Item No: Thermal grease
Company Name: Maxtor New
Materials Co., Ltd

Batch No: 20221119066

Production Date: 11, 19, 2022

RoHS

한국어

열전도율
은 열 저항 및 보관
낮은 열 사용성
뛰어난 안전성

Русский

Высокое и стабильное
Удобное и безопасное хранение
Отличная совместимость с компонентами

高热伝導率
ていねつていこう
使いやすい保存も簡単
安全で導電しない

Application CPU, GPU, power semiconductor components	Grey
Specifications	2.8g/cm ³
Color	12.8W/m-K
Specific Gravity(25°C)	-50°C~+250°C
Specific Conductivity	5 Years(Limited)
Thermal Conductivity	
Temperature Stability	
Warranty	

S/N

Use only as thermal compound. Keep out of the reach of children.

This mark indicates product compliance with the European
Restriction of Hazardous Substances Directive

Use only as thermal compound. Keep out of the reach of children.
This mark indicates product compliance with the European
Restriction of Hazardous Substances Directive
Union's RoHS (Restriction of Hazardous Substances) Directive
to improper use,
accident, neglect, alteration, repair, improper
installation, or improper testing.
