Triangulus puzzle

Can you solve this?

**MEUQ
DESIGN**

Made in Holland

HAPPY TO SEE YOU

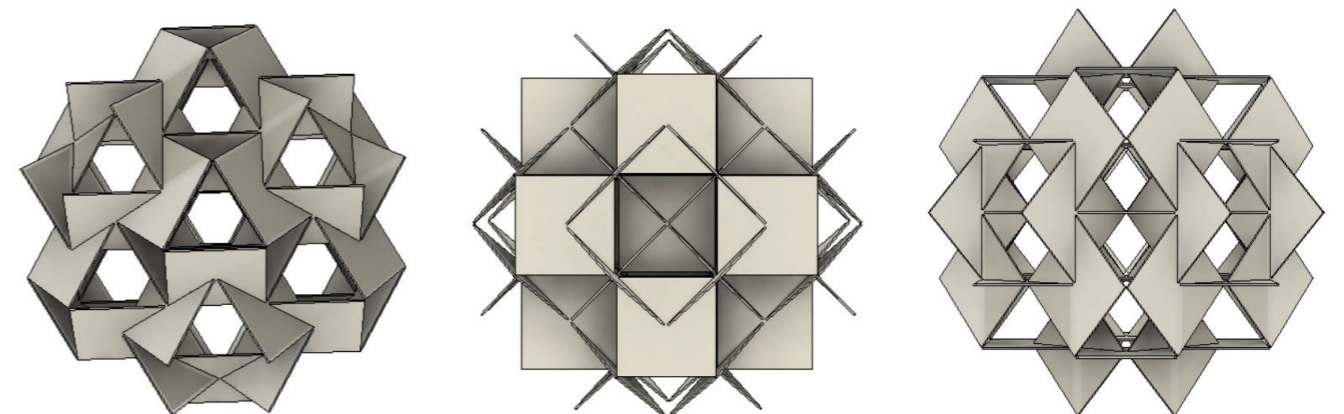

We gave you some little instructions to start with.
We advice you to read the instructions and tips first before jumping to
the fun of it.

INSTRUCTIONS AND TIPS

- For this puzzle you need 66 pieces. We gave you some extra to be creative as you wish.
- Push the wooden pieces out carefully. We know, it's an amazing feeling!
- To assemble the wooden puzzle, make sure you push the individual pieces into eachother until you hear a little sound; "CLICK".
- We wish you a lot of fun, goodluck!

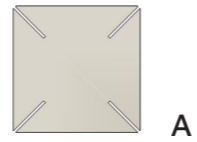

A CHALLENGE

You see here different 3D drawigns of the puzzle.
Can you solve it without our visual roadmap?

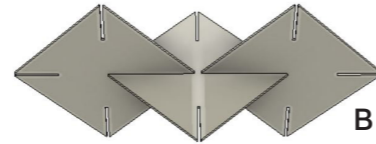

VISUAL ROADMAP

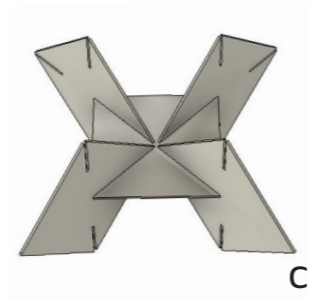

Step 1: take 66 x image A

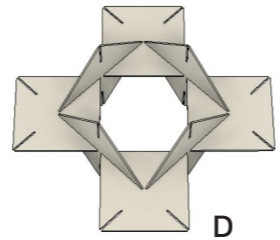

Step 2: make 16 x image B

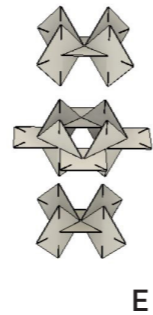

Step 3: make 2 x image C

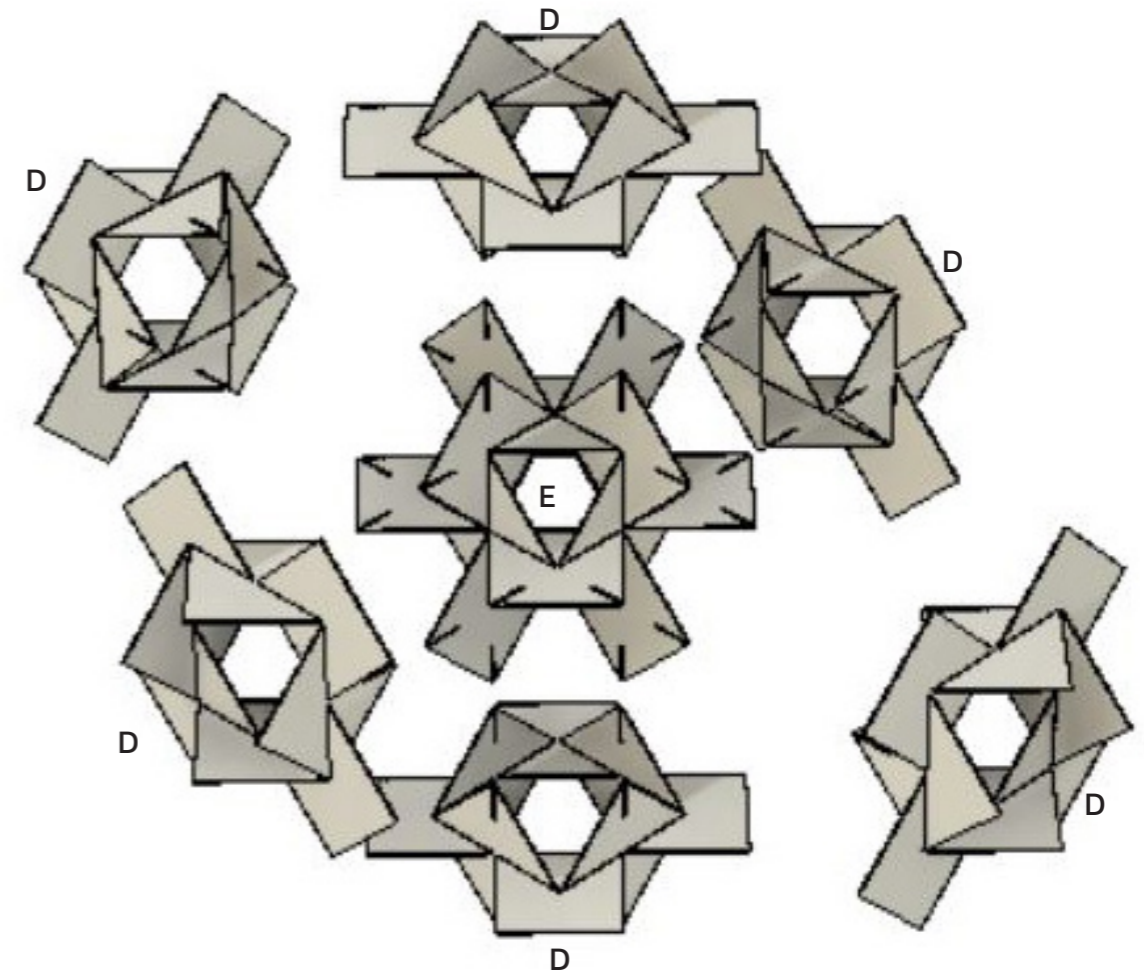

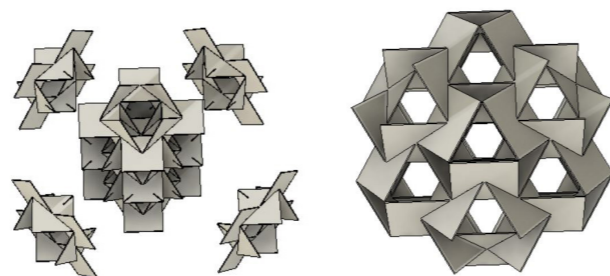

Step 4: make 7 x image D. $D = 2x a + 2x b$

Step 5: Make the core part E of the puzzle by connecting 2x image C + 1x image D

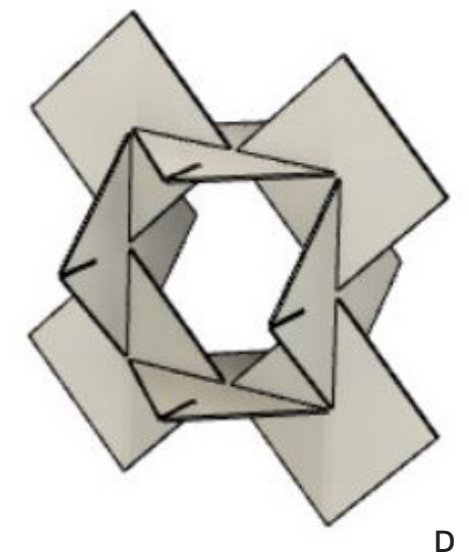

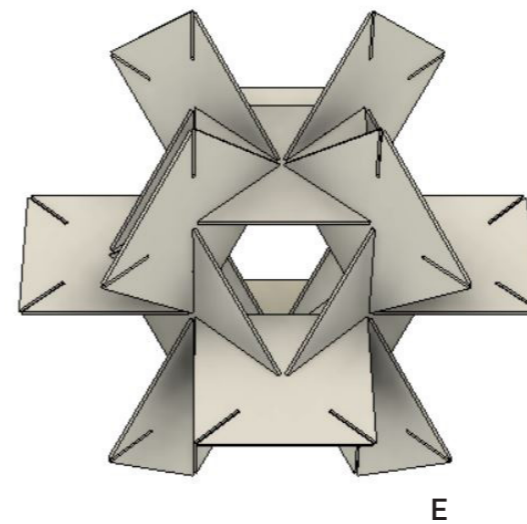

Step 6: Combine all the pieces you made in previous steps to complete the puzzle

Mid-piece 1x

Side-piece 6x

Step 7: Don't forget to take notes in your notebook!
