

# Power Banks

## Charge Anywhere

We all rely heavily on our mobile devices; not just for phone calls, but also social media, taking photos, videos, internet browsing, checking emails and listening to music. It can be crucial that you keep these power-hungry smartphones, tablets and cameras charged while on the go.

Verbatim's extensive range of Power Banks come in all shapes and sizes. A 5000mAh Power Bank charges an iPhone around 1½ times, while 20,000mAh provides 6 or 7 full charges.

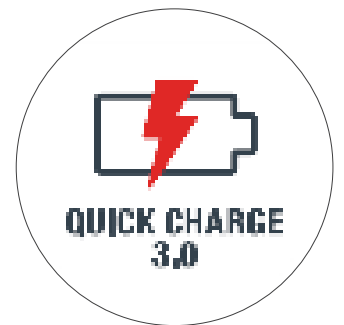

Multiple ports make it possible to charge more than one device at a time while Qi certified charging pads enable wireless charging. Quick charge 3.0 and USB-C Power Delivery gets power to your device superfast.

Make sure you are always charged up and connected – keep a Verbatim Power Bank with you at all times.

Qi certification ensures the best quality in wireless chargers

Quick charge 3.0 technology charges devices faster

Power Delivery technology allows devices to charge quickly over the USB-C connection

 **Verbatim**<sup>™</sup>  
Technology you can trust

# Wireless Charging

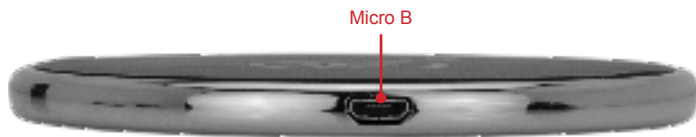

## Qi certification

Qi, pronounced as 'CHEE' from the Chinese meaning of 'circulatory life force' is now used to describe wireless power transfer using inductive charging over short distances. Only products that have passed the rigorous safety, operation and energy efficiency tests demanded for the official Qi certification are allowed to use the Qi logo. Using a non-certified product could cause damage to your device or even injury to yourself!

## Wireless Charging Pads

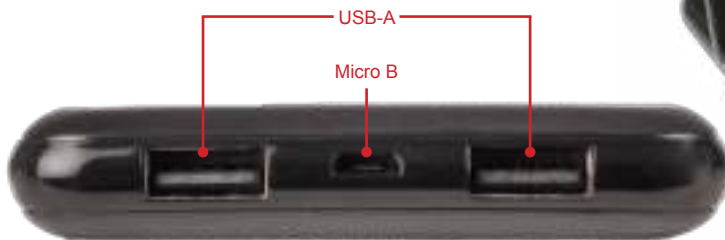

- Charge your phone without cables
- Qi certified
- 10W fast charge mode
- Compatible with Qi enabled phones
- Anti-slip pad
- Premium finish with metal or rubber edging

Part no.	Input	Edging	Barcode	EAN 128 Outer	EAN 14 Outer / Inner
49550	Micro B	Rubber	023942495505	(02)00023942495505(37)40(91)221	50023942495500
49551	Micro B	Metal	023942495512	(02)00023942495512(37)40(91)221	50023942495517

## 2-in-1 Wireless Charger & Power Bank

- Charge your Qi enabled phone without cables
- Qi certified
- Pre-charged ready for use
- Micro B USB input
- 2 x USB-A ports for charging multiple devices
- 5W wireless charger output

Part no.	mAh	Input	Output	Colour	Barcode	EAN 128 Outer / Inner	EAN 14 Outer / Inner
49571	10,000	Micro B	2 x USB-A	Black	023942495710	(02)00023942495710(37)20(91)476 (02)00023942495710(37)10(91)476	50023942495715 20023942495714

# Quick Charge 3.0

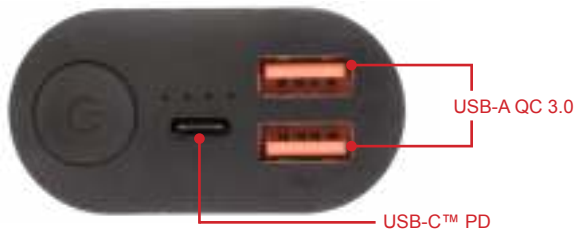

## What is Quick Charge 3.0 and USB-C™ PD?

**Quick charge 3.0** is a new technology which allows high levels of current to flow to the battery, charging it faster. Both the device and the charger must be compatible with the same voltages and currents to work in the most efficient way. However it is possible to charge an older device with a QC 3.0 charger, but it will charge at a voltage limited by the device itself.

**USB-C™ PD** is a USB-C port that supports another fast charging technology called Power Delivery. Like QC 3.0, Power Delivery (PD) allows devices to charge quickly over the USB-C connection. PD starts at the 5V setting and can vary up to 20V depending on the requirements of the device it is charging. Interestingly, if two phones that support PD are connected with a USB-C charging cable, one device could charge the other, with no additional power supply needed!

### Power Bank Quick Charge 3.0 & USB-C™

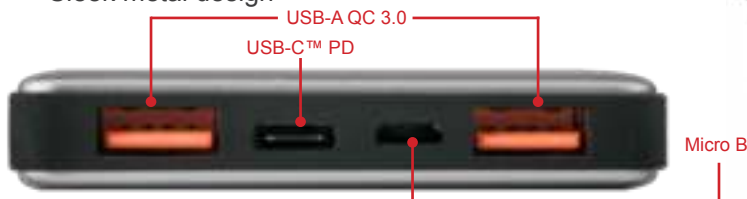

- Quick charge 3.0 compatible power bank with three charging ports
- Pre-charged ready for use
- Charges smartphone and tablet devices
- USB-C™ PD input
- Charge devices faster with two USB-A QC 3.0 ports and one USB-C™ PD port
- Sleek metal design

Part no.	mAh	Input	Output	Colour	Barcode	EAN 128 Outer / Inner	EAN 14 Outer / Inner
49573	10,000	USB-C™ PD	2 x USB-A QC 3.0 USB-C™ PD	Silver/Metal	023942495734	(02)00023942495734(37)20(91)476 (02)00023942495734(37)10(91)476	50023942495739 20023942495738
