

PRODUCT SPEC SHEET

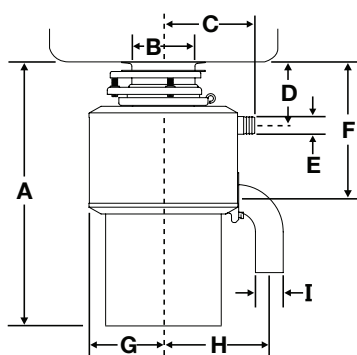

LIGHT DUTY MODEL LC-50

Designed for light duty operation* in food service environments from coffee shops to office kitchens, the LC-50 is packed with heavyweight disposer performance. Its high quality construction comprises a stainless steel grind chamber and a powerful commercial motor that auto-reverses to ensure long life and trouble free operation. Easy to operate with a standard wall switch, the LC-50 improves kitchen sanitation and increases staff efficiency by washing food waste clean away.
