Product Specifications:

1. Dust Collection Cover 2. Filter Net 3. Dust Container Switch
4. Power On/Off 5. Comfortable Handle 6. Charger
7. Soft Pipe 8. Flat Nozzle 9. Adapter 10. Hairbrush

Instructions:

1. There is Power On/Off on the handle. Switch ON to operate, back to OFF to shut down.
2. Apply different suction nozzles when used in different position. Wireless vacuum can reach every position inside the automobile and the trunk, as well as at home.
3. Put the suction nozzle flatly onto the ground when using. Apply flat suction nozzle for sands to make better cleaning.

AUTOMOBILE VACUUM

(Please read the instructions before use.)

Instructions

4. There is filter housing in front of the Power Switch to fix the switch. Press to remove the housing for cleaning the filter net.
5. Do not intake inflamer, such as a burning cigarette.
6. The vacuum is suitable for dry and wet use.
Remember to open the front cover for draining the water away when using for water suction.

Cautions:

1. Please fully charge the vacuum when receiving the vacuum. Fully charge until the green light is on.
2. The vacuum cannot be operated constantly for quite long time. Generally pause for 1-2 minutes after 10-12 minutes of operation in order to protect the electrical motor.
3. Clean the filter net in time in order not to affect the dust collection efficiency.
4. The filter net can be washed. Dry by the air after washing.
5. When run out of battery, charge the vacuum after turning off the power, otherwise it could not be charged.
