

# Wireless Controller

- Designed for N-SL
- Dual electric motors for an enhanced gaming experience
- Ergonomic design. Asymmetric button layout provides
- **Type - C** charging port allows you to use your original
- Coming with a 0.7 M **Type - C** charging cable, allows
- **Type - A** wall charger to achieve reliable, safe charging
- The receiving distance at about 10M (barrier-free environment)
- Include an accelerometer and gyro-sensor, making it

External dimensions (width x height x depth)	Approx. 155 x 1
Mass	Approx. 185 g
Charging port	<b>Type - C</b>
vibration function	Supports double
Charging current	About 200mA
Battery	Built-in polymer
Battery capacity	400mAh
Battery using time	About 8 hours
Charging time	About 2.5 hours
Charging method	USB DC 5V
