2 LIGHTS

Automatic working wall light

solar outdoor fence light with built in sensor sensor and automatic switch, let it turn on automatically at dusk and turn off automatically at sunrise or in bright places.

Energy-saving LED solar fence light

Built-in monocrystalline silicon panel with high conversion rate of 24% V and 900-mAh / 3.7V lithium battery, fully charged for 8 hours can provide 10 hours of continuous night lighting.

IP65 waterproof

The solar fence light consists of a durable ABS shell, which is equipped with high-quality polycrystalline solar panels that withstand rain, snow, thunderstorms and frost and work well in all extreme weather conditions.

Easy installation

To install solar fence lights in direct sunlight, you just need to attach the screws to the wall and the installation can be done without external cables.
